

## Bizz Tours Truckee-Donner, North Lake Tahoe Area

North Lake Tahoe's representative in Congress, Harold T. "Bizz" Johnson, Saturday advised King's Beach constituents asking about securing beach front for public use "if the state chooses to assist, we can help."

Johnson said California State Parks share of federal funds next year will be \$7 million and this would be the logical place to start.

"There are also other federal funds available but it should be done through local, state and federal efforts."

When asked about Congressional approval of the California-Nevada bistate pact for Lake Tahoe regional planning, Johnson said the old bill was dead and a new one had to be drafted — "it will not move as fast as we expected."

"We will have a whole new (government) family to work with — a new administration, new department heads, new agency heads, new committees. When there is a personnel change, there is a long time to work things out and no agency or new personnel is going to jump into making any decision without full orientation and complete agency approval."

"We are working on it, I hope we don't run out of time."

Johnson told Truckee residents earlier Saturday at Donner State Park that he hopes for progress next year on the Martis Creek Project but agencies will have to wait for President Johnson's State of the Union message and next year's budget to see if there are any curtailments in federal programs involved.

The Martis project will create a reservoir for recreation, irrigation and flood control. The Congressman also said that \$450 million in California highway construction is assured in 1969, but a review of U.S. Forest Service programs will be necessary before there is any assurance of a new Tahoe national forest facility at Truckee.

At a Tahoe City meeting with constituents, Johnson said he is in favor of the Tahoe City Public Utility District and Recreation Association's efforts on 64 acres of Bureau of Reclamation land there.

For two years local groups have been trying to get local control of the land now owned by the Truckee-Carson Irrigation District of Fallon, Nev. in order to develop year-long public recreation.

Johnson said the issue probably would be resolved in a year. It hinges on whether Congress will authorize \$3.5 million in improvements on the Newlands Irrigation Project for which TCID voters have agreed to give up their ownership of the 64 acres.

"I think we can work something out (if TCID releases the 64 acres) that would give you people a great recreational development that everyone would be in favor of," concluded Johnson.

In explaining Congressional problems (besides the "new government family," Johnson noted it was difficult to get consideration (in Congress) on rural problems as opposed to urban area problems because of the tremendous overbalance of population in cities.

The second district which Johnson represents covers one third of the state of California

but has only a half million population.

The Congressman concluded his talk by saying the major concerns in District were lumber, agriculture and recreation.

"And within a short time, recreation will top all the rest in this district," he said.

## Utility Firm Open House In New Office

W. H. Hay, district manager for Southwest Gas Corporation, announced today that the company is having "open house" at its new office building in Incline Village on Monday, December 16, from 1 to 5 p.m.

Hay said the public is invited and that Jo Ann Sheerin, home economist for the utility, will serve refreshments to all visitors. The office is located on Tahoe Blvd. at Northwood.

Purpose of the open house, according to Hay, "is to show our customers and neighbors our new expanded facilities and to let them become better acquainted with our staff at the North Shore."

Hay said Southwest Gas employs 15 people in its office, construction and customer service departments at its Incline Village and south shore offices.

Natural gas service now extends to all communities in the Lake Tahoe basin, according to Hay. Southwest Gas serves more than 4,000 customers. The firm also supplies gas to South Tahoe Gas Co., which has approximately 2,000 customers.

## Men Guilty Of Tree Cutting

On December 2, in Federal Court, Edward Waggoner, Jr., and Robert Petrocchi of Colfax, appeared and pled guilty to a two-count charge filed by the U.S. Attorney, on behalf of the U.S. Forest Service, for the illegal cutting and transportation of Christmas trees.

This offense occurred on the Big Bend Ranger District, Tahoe National Forest on November 8.

Waggoner and Petrocchi will again appear in court on December 16, at which time they will receive judgment and sentence. Each count carries a maximum sentence of one year in jail and/or \$1,000 fine.

The forest service was able to recover and seize 518 trees which were sold at auction on November 25, with the successful bidder paying \$803.50 for these trees.

# Truckee's McGlashan Named To Newspaper Hall Of Fame

C. F. McGlashan, former editor and publisher of the Truckee Republican and famed his-

torian of the Donner Party, was elected Friday to the California Newspaper Hall of Fame,

McGlashan, who died in 1931 at the age of 84, was at various times a teacher in Placer-

ville, a school principal, correspondent for the Sacramento Union, publisher of the Santa Barbara Press, an attorney, a state assemblyman, and devoted much of his life to the Truckee newspaper, now the Sierra Sun, which is nearing its 100th birthday.

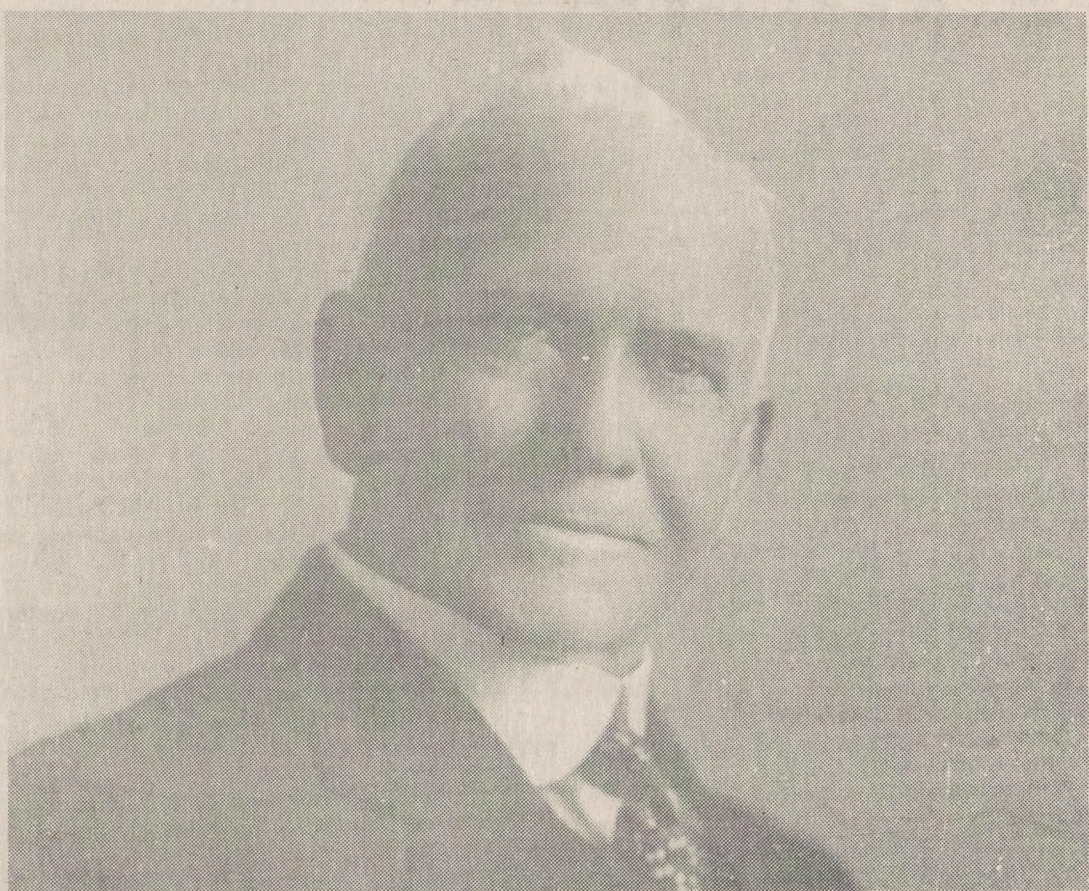

Born in Janesville, Wisconsin, in 1847, McGlashan first saw Truckee in 1871. After interviewing both survivors and relief party members of the ill-fated Donner-Reed Party and excavating their cabin sites near Donner Lake, he published in 1879 his authoritative work, "History of the Don-

ner Party; A Tragedy of the Sierra," still considered today a definitive exposition of the pioneer era.

The Truckee Republican carried the story in serial form first and it was then published as a book in 1880.

McGlashan later was instrumental in the design and erection of the famed Pioneer Monument at Donner Memorial State Park, and contributed much to the development of Truckee.

The naming of McGlashan to the Hall of Fame was announced in San Francisco by J. Hart Clinton, of San Mateo, president of the California Press Association.

ELECTED TO HALL OF FAME — C. F. McGlashan, former editor and publisher of the Truckee Republican, now the Sierra Sun, has been named to the California Press Association's Hall of Fame. McGlashan, author of "History of the Donner Party; A Tragedy of the Sierra," died in 1931 at the age of 84.

## "Sing Out Sacramento" Entertains In Concert

Some 200 area residents came out Saturday to hear the youthful high school and college age "Sing Out Sacramento" group at Tahoe Truckee High School.

The appearance of the group here has generated interest enough so there will be a meeting Thursday, Dec. 12 at 7 p.m. in the High School cafeteria for any all young people who would like to form a "Sing Out Truckee" group. Mary Ann Atkinson is student leader.

"Sing out" groups have been forming throughout the country ever since an original "Sing Out America" group of young

people "protested" by avowing their patriotism and belief in good and God to combat the negative protest groups appearing on college campuses.

"Our generation is looking for ideas we can believe in and fight for," said one member of "Sing Out" in the group's "Peace" publication.

"We want peace, but not at the price of freedom."

"We'd rather be challenged by hard work and sacrifice than mothered by society."

"Ours is a generation on the move, ready to be disciplined, ready to dare."

## El Dorado To Oppose Tahoe Compact

PLACERVILLE — El Dorado County Board of Supervisors has asked J. Mark Nielsen, County administrator to draft a letter to Congressman Harold Johnson, Second District, outlining the board's objection to an inter-state compact concerning Lake Tahoe as the compact affects El Dorado County.

Thomas Goodloe, supervisor-elect in the Third District, suggested to the supervisors Monday afternoon they should also consider next Monday a proposed resolution voicing their objections to the California Lake Tahoe Regional Planning Agency as a legislative and taxing agency.

Supervisors Joe Ronzone and Hiram Walker both said they are opposed to the bi-state compact as presently designed.

William Van Dyke Johnson, supervisor-elect in the county's Second District, said he feels the board should, without specific reference to Lake Tahoe, reaffirm its "belief in representative government and oppose any appointive body being given legislative, taxing or police power."

Johnson said, "I love Lake Tahoe; I have spent many years

of my life there, but I can't see saving Lake Tahoe by destroying representative government."

The matter came up on the board agenda in a communication from the California Tahoe Regional Planning Agency inviting board comments on proposed ordinances to be considered at the agency's meeting Friday.

The ordinances relate to:

Providing for a review by the agency of certain proposed acts which are being considered by local governments;

Establishing standards for local subdivision ordinances affecting the basin;

Regulating grading, excavations, cuts and fills in the basin.

The board's action on the communication was to refer it to the county planning commission meeting Thursday for recommendation.

The discussion opened the door for a report by Nielsen on a meeting with Congressman Johnson during which the congressman said he had not known El Dorado County objected to the bi-state compact, suggested action in the legislature as a proper approach, and declared he will have to re-examine his January sponsorship of the compact if the El Dorado County objections are maintained.

Congressman Johnson said he had been acting under the belief that all five counties bordering the lake, as well as the states of Nevada and California were in accord.

## Henry Loehr To Be Honored Tomorrow

Henry Loehr, retiring fifth district supervisor in Nevada County after 24 years service, will be honored tomorrow night, Thursday, December 12, with a testimonial dinner at the Donner Lake Lodge.

A no-host cocktail hour will commence at 6:30 with dinner at 7:30 p.m. Truckee-Donner Chamber of Commerce is the sponsor.

Reservations may be made by calling Tom Dolley at the chamber office in Truckee, chamber president Carson White at Donner Lake, or Jim Walker at Walkers Toggery in Truckee.

## Board Meeting Is Postponed

An audience of some 20 to 25 persons and two members of the Truckee-Donner Recreation Park District Board of Directors were disappointed last Wednesday when the regular meeting had to be cancelled because there was not a quorum of board members present.

Three members constitute a quorum. Chairman Harry Jamason, with William Curran, waited 15 minutes before calling a recessed meeting for Wednesday, Dec. 11. It will be held at 8 p.m. in the Nevada County Building in Gateway.

## DeMolay Selling Christmas Trees

Members of the Tahoe Truckee DeMolay have announced they are selling Christmas trees again this year.

The trees are at the Buck Shane residence. Anyone interested may call Mrs. Shane at 587-3265.

## Truckee Basketball Meet Gets Under Way Tomorrow

The second annual six-team basketball tourney sponsored by the Tahoe City Optimist Club and Tahoe Truckee High School gets underway Thursday, Dec. 12. First game is scheduled at 4:30 p.m. with Colfax playing Downieville. At 6 o'clock Herlong will meet El Dorado, Tahoe Truckee hoopers will meet Loyton, a team they defeated easily in non-league play last week in the

7:30 p.m. game, Thursday play will conclude with Mariposa battling Incline at 9 p.m.

Friday's tournament schedule will also start at 4:30 p.m. with teams depending upon Thursday eliminations. Final tournament play starts at 6 p.m. Saturday.

Donations are \$1.25 for adults and 75 cents for students with student body cards. Proceeds go towards youth projects in the area.

## Set Placer Zoning Meeting

Justin F. (Fred) Barber, Placer County planning director, has announced the planning commission has set Feb. 28 for a public hearing on proposed amendments to the zoning ordinance. Amendments are deemed necessary due to the increasing number of applications for mobile homes.

Suggested changes are that house trailers should be used in agriculture and farm zones; during the building of a home;

trailer parks be allowed as a matter of right in multiple residential zones; should be allowed as a matter of right for property owners with 20 acres or more; trailers should be required to have a 400-square-foot minimum floor area unless used only seasonally.

Barber said Placer County also will join El Dorado and Nevada counties in gathering facts for a study of mobile home problems.

VISITS CANDYSTRIPE — Congressman Harold T. (Bizz) Johnson visited Tahoe Forest Hospital Saturday during his tour of the Truckee-Donner area, paused to greet Mrs. Kate Miles, left, chairman of the Auxiliary, and three pleased candystripers at the snack bar and gift shop maintained by the Auxiliary in the hospital lobby.

A COMPREHENSIVE TOUR — Congressman Bizz Johnson, left, is conducted through Tahoe Forest Hospital by Administrator Arnold Intorf, center, and chief of staff Dr. Edmund E. Wilkins, Jr. The Congressman extended his congratulations on expansion of facilities since his last visit and the achievement of official accreditation. (Additional Johnson visit pictures on Page 3.)

## One Man's Opinion

By CARL BRIGGS

Despite all warnings to the contrary by such weather experts as chipmunks, old Indians, acorns, pine trees, bluejays and various other psychic flora and fauna, the winter has not yet developed into a long, hard one and here it is almost mid-December.

At Monday news time, however, there were rolling tentacles in most quadrants with dire forecasts of gale winds and heavy precipitation. At Tuesday press time Tahoe was curling up in great green waves along the north shore and the pink clouds of dawn turned a scudding muddy gray by mid-morning. Winter. All of which means giddy giggling from the skiers as they anticipate slipping about on city hillsides with pointy boards somehow attached to the bottoms of their feet.

I am not a skier, as most of my detractors are aware, and I prefer to take my exercise in a more leisurely fashion and in more gracious surroundings. I find that swishing olives around in martini glasses and propelling my rubber duck around in the bathtub, either concurrently or in sequence, is sufficiently exhilarating at this stage of the game to satisfy my wildest athletic ambitions. After all, one needn't play at a sport in order to be one.

Having divulged the secret of my sunny disposition, not to mention the sanitary condition of both myself and my rubber duck, I'll here depose that I bear no ill feeling toward skiers and ski proprietors, but rather wish them good snow and a long and prosperous season. I almost said I hope they fall and break their arms and legs, an old European custom (the saying, not the fall), but I'm afraid that might be misconstrued as some form of attack on the industry. Actually, some of my best friends are skiers. Crazy nuts, to be sure, but friends nevertheless. Loyalty wins out.

But really, it is an exciting season and I am secretly looking forward to it as much as anyone — ambulance drivers, orthopedic surgeons, crutch makers. And as long as we're all going to be so enthusiastic about this odd mania, where better to see the elephant than at greater North Lake Tahoe? Ski Tahoe North, they say. Golfers, after all, are convinced that sand traps are all a part of the game, so shouldn't they love the Sahara Desert?

Personally, I think Lake Tahoe should have a monster of its very own, just like Loch Ness, and next year I'm going to work on that — just as soon as the winter snows have gone. Meanwhile, where did I put my rubber duck?

Last Thursday night a regularly scheduled board of directors meeting of the Truckee-Donner Recreation and Park District had to be cancelled because only two of the directors showed up — along with district superintendent Dr. Henry P. Tapia and some 30 citizens who were apparently there to express their feelings concerning the recent dismissal of Dr. Tapia from his position.

By a funny coincidence, the three directors who failed to appear are the same three who are responsible for Dr. Tapia's dismissal.

# Letters To The Editor

EDITOR, SIERRA SUN:

According to the job description as formulated by Dr. Tapia when he was chairman of the board, "The Director of the Recreation and Park District . . . prepares, justifies and administers the department budget." On this basis, Dr. Tapia has been negligent in his duties. As I noted in my letter to the editor on June 26, 1968, Dr. Tapia submitted at first a budget which did not balance. When that was corrected, it was found that the amount requested would exceed the 50 cents per \$100 limit. At this point the board started paring away (which is their responsibility to you, the taxpayer. The rate has been reduced to 45 cents per \$100). At this point, charges of "backbiting and nit-picking" were leveled at the board by their employee, Dr. Tapia.

At the regular meeting in July, a request for \$150 for lifeguards for the summer swim program was refused by Dr. Tapia. "Because it was not in the budget."

At the regular meeting in August, an \$1,800 expenditure, not in the budget, was approved and Dr. Tapia stated that there were sufficient funds.

At the regular meeting in October, a maximum \$2,000 expenditure was authorized by the board and Dr. Tapia stated that there were sufficient funds, although this was also not in the budget.

In neither of these two cases has Dr. Tapia requested a resolution by the board to transfer these funds from whatever budget accounts he intends to draw them.

All other district supervisors do this as a matter of course. It still seems to me that Dr. Tapia has been running a very sloppy ship and has consistently refused to comply with his employer's reasonable budgetary requests and was thereby liable for dismissal on these grounds alone.

Roberta C. Huber

Truckee (Editor's Note: A brief review of the budget and reports of past meetings disclosed the following:

The original budget called for \$69,996, of which \$15,000 was already on hand, leaving a balance needed from taxes of \$54,996. A tax rate of 49 cents for \$1000 assessed valuation would have provided \$55,680 — more than enough to meet Dr. Tapia's original request. The 45-cent tax rate adopted by the board raised \$51,136 for a total "pared" budget of \$66,136, or about \$3,860 under Dr. Tapia's request, a matter of about 5 per cent. Did you ever hear of a budget NOT calling for more than it expected to get?

At the July meeting, there was no money allocated by the board for life guards. A Red Cross swimming instructor — a life guard equivalent — and district employee "spotters" were on duty at all times during swimming sessions.

At the August meeting, the \$1,800 expenditure was for site utilities at the regional park and was taken from a fund of \$22,000 budgeted for that purpose.

At the October meeting, landscaping expenditures were authorized out of a \$25,000 fund budgeted for that purpose.

In each case, funds were in the proper accounts and no board "resolutions" were necessary.

Even if the above allegations were accurate, they would constitute nothing more than routine business of any board of directors. One prime purpose of having an elected board and a salaried administrator is to provide checks and balances on matters of policy and control, to make decisions on expenditures, and to otherwise arrive at an efficient and reasonable functioning level. To say the above allegations, even if accurate, are justification for firing a loyal, capable, and dedicated superintendent only supports the contention that his dismissal is a matter of personalities, jealousies and petty politics.)

\*\*\*

EDITOR, SIERRA SUN:

It is with a great deal of sadness and a heavy heart that I write this letter — especially at this time of year, when our great nation has set aside special days to show gratitude to God for all our bountiful blessings.

Has this community shown its gratitude to Dr. Tapia, superintendent of our local Truckee-Donner Recreation and Park District, for all the time and effort he has put in for our area? The answer is NO.

At a public directors meeting held November 25 at the county government building, the directors voted 3-2 to dismiss Dr. Tapia from his duties on the grounds of "negligence and actions unbecoming a superintendent of this district." I cannot go along with this decision. I am also withdrawing my membership in the Truckee Outdoor Sportsman Club for the part they played in his dismissal. Dr. Tapia is an ardent hunter and would do everything in his power to help the Sportsman group, but district funds have to go where they will help the greatest number of people. It is my belief that a rifle range would help only the minority at this time. The directors already have quite a list of things to finish before taking on anything new. How can the Sportsman blame Dr. Tapia for this?

It's also perfectly true that we can campaign for a person — and Dr. Tapia campaigned two years ago for a member of the board who voted for his dismissal. It is also within his American right to campaign against a person running for public office, but a non-profit organization cannot legally come out in support of any person running for public office like a local club did when they sent out postcards supporting Mrs. Fish for public office. Mr. Charles Osburn, who was running for the board of directors, is also a member of this club and a past president several times over and by himself literally held that organization together. He worked for many years to acquire a rifle range for this area, yet his name wasn't mentioned on this card. In the early 1950's, the Sportsman Club maintained a rifle range across the river, but due to complaints from the local citizens they were forced to

close it. Later, a forest ranger (the late Mr. Steed) helped the club acquire use of a piece of land in the Boca area for a rifle range. Yet, due to requirements of the forest service imposed on the property at that time, it was impossible for this small club to meet the following:

1. Road to the property was to be graded and blacktopped to county specifications.
2. The entire area to be fenced with a curved barbed wire top.
3. State and NRA approved shooting range.
4. Clubhouse.
5. Full time maintenance man.

In the past couple of years the club has worked through the recreation and park district to acquire the use of the land, Dr. Tapia and a district surveyor had gone out and looked things over. The surveyor told Dr. Tapia he would do this job free for the district and the Sportsman Club, if he could do it on his own time. Because the funds had not been voted for the project, it was left that way. Now that Dr. Tapia has been dismissed, the surveyor has withdrawn his free offer — now who is going to come up with the approximately \$500 that it will cost to get the plans ready to submit to the forest service for lease approval?

For years the Outdoor Sportsman Club has been interested in fixing up the boat ramp at the northwest end of Donner Lake bordering Donner Pass Road. Through the recreation and park district, Dr. Tapia was able to secure a grant of \$50,000 from the California Department of Small Crafts and Harbors. This was three years ago. Like the cheese I like so well — it went from 79 cents a pound to 83 cents — the cost of construction has gone up. By using the fill from the new sewer line at Donner, the district was able to save \$10,000 on the fill for the new boat ramp. These people are to be praised, for there wasn't a bit of mud in the lake after they finished putting in the fill. When this ramp is finished, it will be a ramp our community will be proud of.

Since Dr. Tapia has been in the office of superintendent of the district, he has acquired through state and federal agencies over \$145,000 to be used for the betterment of our area.

The first year and a half, the local recreation district (which was started by Dr. Tapia) didn't have money enough to buy a five-cent stamp, let alone do anything else. All money came out of the director's pockets, of which board Charles Osburn and Dr. Tapia were members. After the district acquired its first money from taxes, it took a great step forward. It maintains parks at Gateway, Floriston, and a 53-acre park on Highway 267. This park is still under construction and will be for several years, in steps, as money comes in. They have purchased 1 1/2 miles of Donner Lake shore line. They have a summer program from 10 a.m. to 4 p.m. each day during the summer for our children aged four to 16, and older. There are

special classes and activities for adults, and they are in the process of negotiating for the west-end beach at Donner.

Dr. Tapia was supposed to take his vacation in September. He postponed it to November because some of the contracts let out to private contractors weren't completed. Is this negligence?

Do you know Dr. Tapia makes less take-home pay a month than my husband? Just before he was dismissed, he had asked for a \$75 per month raise and got \$30. Most people in his position earn from \$500 to \$700 more per month than he has been making. It can't be the money. Why has he been putting up with all this petty bickering from the majority of the board? It must be that he holds his interest in our area above SELF, and I am only one person in this community who is glad and proud to call him a friend.

Indeed, where is our gratitude?

Mrs. William R. Fordham

Truckee

EDITOR, SIERRA SUN:

Girl Scout Troop 124 of Kings Beach would like to thank Al Perino of your staff for a most interesting tour of your Truckee office.

We enjoyed his friendly explanations of the different types of machines and his patience with us 30 girls. We know how important your newspaper is to our area and by visiting your office were able to complete a requirement for our community badge.

Thank you again.  
Girl Scout Troop 124

## Woman Dies On Summit

Joan White, 20, Madison, Wis., was killed last week at 6:10 o'clock when she was thrown from a small foreign-built car which was driven by Michael A. London, 23, San Francisco. The vehicle plunged down an embankment just east of the Soda Springs overcrossing on Interstate 80 and crushed the victim.

The California Highway Patrol said the driver apparently fell asleep at the wheel. The couple had traveled from Wisconsin without stopping for rest.

The driver was released from the Tahoe Forest Hospital Wednesday after treatment of minor injuries.

## Brownie Investiture

Members of Brownie Troop 101 of Truckee held an investiture last Thursday at the Fire House.

New girls receiving their Brownie pins were Isabelle Aguilar, Suellen Cady, Carol Crenshaw, Lisa Johnson, Theresa Studer, Karl King and Cheryl Hansen.

Returning to the group and receiving their one year pins were Jane Fish, Allison Markler, Kathleen Mohla, Ellen Wilkins, Cindy Hansen and Marty Small.

## Peace On Earth, Good Will To Men To Be Observed During Cease Fire

The annual era of "Peace on Earth, Good Will to Men" will be observed this year in an atmosphere of anything but peace and good will in many areas of the earth, according to Regional News Service.

In some areas, it will, perhaps, be only a "cease-fire" such as occasionally happens in the Vietnam war. Even this is an improvement over most wars in which cease-fires were unheard of.

A world of change is a world of controversy and contention,

far different from the peaceful surroundings of earlier days amidst which Longfellow, for example, wrote his famous phrase in the eighteenth century.

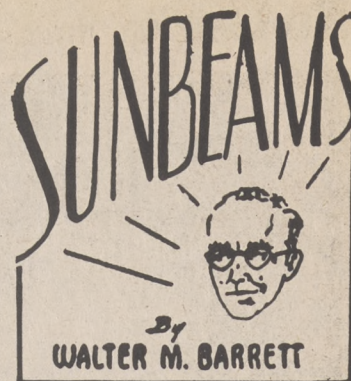

Change even shakes the churches, including the oldest and most powerful of all. Who a few short years ago would have dreamed of the insubordination and rebellion which surges in some quarters around the vicar of Christ?

Lacking power to inspire

"Peace on Earth, Good Will to Men," about all the world can do is to try to contain controversy within sane limits, minimizing hatreds and violence.

Out of all this, one may hope, will come genuine peace and good will so that mankind can pursue its high destiny for the benefit of all men.

That time must come. That is the message of "Peace on Earth, Good Will to Men" at Christmas 1968.

From now until late spring, driving on mountain highways presents dangers which the average motorist may not realize.

A good example of a most frequent cause of accidents is that melting snow on the pavement freezes at night forming what is known as "black ice." Even a small stretch of this ice or just a spot on the pavement can cause a speeding car to go into a tailspin and get entirely out of control in a second, resulting in a costly and sometimes fatal crash.

This ice is often invisible to the driver and although the division of highways makes every effort to keep it sanded and safe, there are times when this is impossible.

Another frequent cause of accidents in the snow country is smooth tires and excessive speed for conditions. Too often drivers speed along under the impression that because they are safe. A slight skid, the application of brakes or a sudden turn may send the vehicle into a snow bank, down an embankment or into another vehicle. All this takes only a split second of time.

Then there is the tragic result of driving too fast on wet roads. Cars will "hydroplane" on rain-slick pavement at excessive speed, usually anything over 50 mph. Front tires, especially smooth ones, collect the water underneath and the tires are completely off the pavement, causing the driver to lose control.

Our suggestion, under all conditions, is to keep the vehicle you are driving under control at all times, regardless of the weather but with more than ordinary caution in wet or snowy country. You might be surprised how quick an accident can happen.

## Cancel Meeting

December meeting of the Truckee-Donner Historical society has been cancelled. The next regular meeting will be held Thursday, Jan. 16

## News From The Past

### 25 Years Ago

From Sierra Sun  
Dec. 16, 1943

N. F. Dolley has been re-elected chief of the Truckee fire department and Tony Pace was named assistant. Captains are Gino Giovannoni and Eldon Tonini. Nat Quilici and Frank Giovannoni are the lieutenants and Charles Brunk and James Garibaldi are engineers.

The Donner Summit, Kingvale and Lake Tahoe areas this week started repair of damage caused in last week's storms. The power company and telephone company were the big losers. More than \$13,000 damage was done at the Oberer pier and breakwater at Homewood. Hundreds of trees fell and many homes were damaged. Airways officials reported a wind velocity of in excess of 110 miles an hour on Donner Summit.

### 30 Years Ago

From Sierra Sun  
Dec. 15, 1938

An effort of Supervisor Jack McFadden, who represents the Lake Tahoe area, to have a salary of \$150 a month fixed for the constable of Township 11 was rejected by the board by a three to two vote. Constable Harry Johanson was reelected to the office in November.

Fire Chief N. F. Dolley and Assistant Tony Pace attended the last meeting of the Nevada Placer, El Dorado Firemen's Association and agreed to join the association.

F. H. Brummond, local Chevrolet dealer, reports the arrival of 1939 models of the car including three passenger cars and a pickup truck.

Officers named by the Truckee Volunteer Fire Department include the reelection of N. F. Dolley as chief; Tony Pace, assistant chief; Erwin Waters and Bob Tonini, captains; Eldon Tonini and Gino Giovannoni, lieutenants; Harry Baldwin, sergeant at arms and Orlan Sanders, secretary-treasurer.

Mileage signs on the Truckee-Lake Tahoe ski trail were posted this week by Forest Ranger H. I. Snider and Assistant, W. F. Fischer. The signs are numbered one to 13 and were made at the Galena Service ERA camp and are clearly marked with the distance from Truckee to Tahoe each mile of the trail.

### 50 Years Ago

Truckee Republican  
Dec. 12, 1918

Three parties traveling in automobiles from Oregon to California became stranded in a snow storm 12 miles east of Truckee on Sunday and were unable to continue their journey. This first snow of the winter began about 4 p.m. and extended from Verdi to Towle, accompanied by high southwest winds. Shortly after midnight it abated, leaving one to three feet of snow on the mountains. The motorists walked a couple of miles to an abandoned shack, tore up some of the flooring and started a fire. The next day the snow-bound group got word to Truckee and a six-horse sleigh was sent out for them. They proceeded by train and their machines were shipped over the summit by rail to Colfax.

The Red Cross membership Roll Call will be conducted here from December 16 to the 23rd. Mrs. E. J. Kaler has been appointed chairman. The following committees have been appointed: Front Street, J. E. Kaler, George Tranter; High Street, Mrs. W. Scott, Mrs. A. Chlopek; Brickleton, Mrs. F. Oliver, Mrs. Ethel Brandon; Church Street, Mrs. F. Weule, Mrs. Davis.

For the first time during the season, the railroad's snow fighting equipment was put into operation last Sunday night. The flanger was all that was required. Conductor Monroe acted as "skipper" and O. E. Smith was engineer.

## No Charges Made In Placer County "Moonlight" Hearing

DO YOU SOLICIT OR NEGOTIATE — Douglas Duff, at microphone, questions Fred Barber, right, and Richard Heikka about their interests in a private planning company during Placer County Civil Service Commission Meeting last Monday.

By FLORENCE BURGE  
Only one of four persons requested to appear at a hearing on county employee moonlighting insinuations, attended the meeting Monday of the Placer County Civil Service Commission. The meeting was held in the Supervisors' chambers at Auburn.

Net result of the meeting was that no charges were leveled against any county employee nor were any suggestions made as to possible revisions in the existing county ordinance on the subject of moonlighting and grounds for disciplinary action.

Chairman J. A. Barclay opened the meeting by explaining it was being held at the request of the County Board of Supervisors for two purposes: to establish whether there was proper cause to file charges of moonlighting against any county employee and whether the county ordinances regarding moonlighting were adequate or need strengthening and to make recommendation in accordance with these findings.

All members of the audience were furnished a copy of existing ordinances governing the above points.

Barclay noted that insinuations on county employee moonlighting have so far only been made through the press, by letters before the County Board of Supervisors.

Persons under fire and present at the meeting were Fred Barber, Placer County director of planning; his assistant, Richard Heikka and Tom McMahon of the county planning staff.

Barber, as an executive, does not come under the jurisdiction of the Civil Service Commission but Heikka and McMahon, do. Barber is directly responsible to the County Board of Supervisors.

"Mr. Barber is a big boy, he can take care of himself," said Barclay.

"But there is more involved here. There are many little persons (county employees) who are suffering because of broad and unsubstantiated insinuations and innuendos.

Persons requested to attend the meeting in order to either bring charges of moonlighting or suggest revisions needed in the existing ordinances were Roland Adams and Bob Gray of Auburn, R. E. Nettleton, president, Mid Placer Citizens Town Meeting of Meadow Vista and Douglas Duff of Colfax.

Duff, the only one of the four to appear, spoke before the commission to say he was not appearing "in regard to moonlighting (but) concerned with a department head (Barber)." He said he did not wish to bring charges but requested permission to question Barber, who, with Heikka and McMahon have a private business concern under the name of Western Plan-

(Continued on page 10)

### GENE CHAPPIE REPORTS 6th ASSEMBLY DISTRICT

SACRAMENTO — Next year, members of the California Assembly will have an opportunity to reorganize and further enhance what is already one of the most creative legislative bodies in the nation.

It will be a propitious moment for positive change, not simply because numerical control has shifted, but because the new majority will be so slim that a bipartisan atmosphere will be an absolute necessity.

Our challenge will not be to find talent for this is already plentiful on both sides of the aisle.

The real problem is how to use this talent efficiently — how to avoid the conflicts in scheduling which often make it impossible for members to attend important committee hearings; how to minimize unnecessary delays which extend sessions and limit the time available for interim studies; how to make information more readily available to individual members in a variety of program areas.

Improving our item study capability is especially important. The intent of the 1966 constitutional amendment which created a so-called "full-time" Legislature has often been misconstrued to mean year-round sessions.

"In fact, however, a legislature which relies heavily on the committee process can often accomplish more after the session has adjourned.

The California Legislature has long been dependent on a strong committee process. Moreover, it is geared to independent creativity. Unlike many state legislatures, which simply approve or disapprove proposals by executive branch or special interest groups, the California Legislature literally goes out looking for problems and originates its own solutions.

But to be effective as an innovative body, the Legislature must provide sufficient time for depth studies, backed by professional staff work. The formal sessions should be used for program decisions, not program development, and we should make every effort to separate these two phases of the legislative process and alleviate conflicts.

I believe we can accomplish this, but only through the willingness of individual members to respect deadlines, etc., designed to prevent logjams and eleven-hour controversies.

Additional committee study will, of course, complement the effectiveness of sessions by ironing out technical problems involved with new bills in advance.

It is my hope that the Assembly we swear in next year will be remembered, not for dim-store speeches and partisan debates, but rather for quiet efficiency and the quality of the legislative product.

### Again For Troelsens

Mr. and Mrs. Bert Troelsen of Truckee became grandparents for the third time on Thanksgiving Day when their daughter, Mrs. Diane Bates of Reno gave birth to a 6 pound, three-ounce daughter christened Holly Marie.

### OEDP Meeting

There will be a meeting of the local Overall Economic Development Plan Committee on December 19, at 8 p.m., in the conference room of Tahoe Forest Hospital, Truckee.

### Crystal Bay Sewer District Needs Petition

CRYSTAL BAY — A petition must be presented to the Washoe County Commissioners if residents here want to form a sewer improvement district.

Commissioners made this decision Thursday after studying a request from Kenneth H. Glantz, Stockton, who owns the water district here, that commissioners form a sewer district so North Tahoe Public Utility District can be constructed with.

The contract would result in exportation of Crystal Bay sewage from the Lake Basin.

NTPUD has agreed to handle about 150,000 gallons of sewage flow from the area per day at a cost of about \$1.4 million.

Property at Crystal Bay is valued at about \$2 million, and the area has an ad valorem tax rate now of about \$4.29 on each \$100 assessed valuation. Property is assessed at 35 per cent of the appraised valuation.

Commissioners noted that the people residing in the area have not been heard from at this point.

While the commissioners have the authority to create a district without hearing from them, they said they would not create it other than by petition. They could thus request a feasibility report.

Commission Chairman Howard McKissick said, "The people at South Lake Tahoe are finding their sewage operation costs much more than they ever anticipated."

The bug's bug

It doesn't even have a species to call its own. It's in a class all by itself. The Ariens 300/III Snowmobile. Here's how to spot it. Look for a tough white shell with orange and black stripes and a squishy vinyl seat. Very brave. Inhabits snow-covered regions with swarms of families and adventurers. Slings along at speeds of 40 m.p.h. plus. Tracks have been observed in remote places where others fear to go. Seldom sleeps. Often roams at night. Seen in the dark. Sustains its 297 c.c. engine on a sparse diet. Goes all day on one feeding. Exterminate those do nothing winters. Bug-out to your Ariens dealer and get the snowmobile bug's bug! The Ariens 300/III Snowmobile.

## and Incline Village News

### LAKE ECHOES

BY BETHEL

Marie and Bailey Justice are back in Incline Village after an extended trip to South America. Panama, Lima, a side trip to the home of the Incas, Chile, Buenos Aires, Rio de Janeiro, Jamaica are a few of the many interesting places visited on their itinerary.

Bailey celebrated his birthday on Thanksgiving with the family. Coming from Danville was son, Gary, his wife, Joanne and twin daughters Karen and Kimberly; Cindy and Charles from San Leandro; daughter Marilee and her husband, Roger Larson and children, Belinda and Pamela.

Happy birthday to Jonathan Van Tassel who celebrated his third birthday Dec. 10 in Walnut Creek with parents, Janene and Jan Van Tassel.

Wendy Foos and son, Brian, of Billings, Mont., is visiting her father and his wife, Jack and Velda Farris at Incline Village.

Happy birthday to Fred Baker of Tahoe Vista and Harry Hooper of Reno and Kings Beach who share Dec. 9 as their natal day. Also to Theresa Sutton of Incline who observes her special day on Dec. 11.

Nelle and Don Barkhurst of Crystal Bay had three dinners to celebrate birthdays of their granddaughters and their mother. Christine was five years old on Nov. 30, her sister, Sandra, was three years old on Nov. 20, Mother, Ina Wright, had her birthday Dec. 2. Father, Frank, is in Vietnam and missed all the celebrating.

Nelle and Don also were recent visitors to Grass Valley to see longtime friends and former lake residents, Ethel and Tom Buell. Tom was superintendent of highways at the lake for many years before leaving the area.

Ginle Durnerin entertained at a cocktail and dinner party at Villa Vista, Tahoe Vista, on Saturday night. Guests were Jim McCourry, Jan and Ray Land, Gail and Sam Kaufmann of Sunnyvale, Dorothy and Bill Esterling, Beth and Dave Chamberlin, Jackie and Bill Todd.

Congratulations to Florence and Lee Burge of Reno and Lake Tahoe who celebrated their wedding anniversary at dinner in Reno on Dec. 2.

Martha and Harry Bernard of Crystal Bay are occupying the Berning home while Susie and Dale are on an extended golf tour. The Bernards hope to have their own home completed by the time the Bernings return.

Thanksgiving the Bernards entertained Terry and Gene Farris and daughters, Deanna and Amy of Los Altos, Terry's mother Hazel Terry and brother, Norman, both of San Francisco.

The Fire Sirens fashion show will be Thursday, Dec. 12, 8 p.m. at the Incline Fire House with Hazel Dugdale of Incline Fashions presenting the show. The Firettes from Truckee and Fire Belles from Kingsbury have been invited by president, Jacquie Black. Ginny Parsons is chairman.

Don't forget the food sale Dec. 20 at Eagle Thrifty and sponsored by the Fire Sirens. Faye Horsley is chairman. President Jacquie Black says the sale will start at 11 a.m. and continue until sold out. However, these gals are good cooks—so get there early!

Christmas decorations are lighting up the north shore area beautifully and many should be entered in the Fire Sirens dec-

orating contest—entry closes Dec. 23. Phone Inez Jordan or Ardith Burrill is all that is needed to enter the competition for which there are three prizes.

The Women's Club of North Tahoe will hold its annual Christmas party Dec. 16, 1 p.m. at the home of Jacquie Black at Incline Beach. Santa Claus will present members and their guests with a Christmas gift after the eggnog party. Members may bring a guest and prospective member of the club but phone Judy Thatcher at 546-2487 or Gerry Cross at 831-1262 for reservations.

Mary Kravchouk and Gloria Negrone will give a program on how other lands celebrate Christmas.

Theresa and Tom Sutton of Incline Village entertained at Thanksgiving dinner for her son and family, Frank and Joann Apichino and sons, David and Rick of South Tahoe, and her sister, and husband, Jerry and Johnny Rayburn of Incline Beach.

Bud and Carol Alario and six sons of San Jose spent Thanksgiving with his parents, Iris and George Alario, at Carson City. Bud's sister and her sons, Joyce Rowe, and Robbie and Rickie, helped make a joyous day for the Alarios.

Frank Giavonni, Russ Farley, George Bayer, and Bill Greenwood of Incline Beach report from their Idaho hunting camp. They bagged a 200 pound Cougar.

Janet and Ralph Yopp and children, Jimmy, Mike and JC of Reno entertained her parents, Inez and J. C. Jordan, Danny Farley and Jimmy Hume of Incline Beach at Thanksgiving dinner.

The Mapes Hotel in Reno was chosen for luncheon by the Birthday Club. Coming from Crystal Bay was Thelma Klinkner and Martha Bernard who celebrated her birthday Dec. 21, and from Reno Rev. Marjorie Baring who observed her birthday Nov. 27. Among others attending were Yvonne Studer of Stead and Vicki Nash and Evelyn Hinds of Reno.

Our sympathy to Lorraine Dominguez of Kings Beach on the death of her husband, Chris, Dec. 3 at the Veteran's Hospital in Reno.

Greg Pope, son of Mr. and Mrs. Walter Pope of Kings Beach, flew home from Phoenix to spend Thanksgiving with his parents, sister, Martha; grandparents, Mr. and Mrs. Lynn Magill and great grandmother, Mrs. Annie Scoggin.

Greg is a student at the Arizona State University at Tempe.

Lee's Hof Brau opened in Reno last week and it was a pleasure having an old friend greet us at dinner. Residents of the North Shore area will remember Lee Frankovich in 1961 who was manager of the Bal that year. Theresa Sutton was hostess that year as well as in previous years for former owner Tom Guerin. Lee will be happy to see friends from the lake at his beautiful new dining spot.

SOME THINGS ARE NOT HARD TO BELIEVE—Like having a tiger in the International Bar at Squaw Valley Lodge; his name is Bengal Tigre Sarang and he's from Ranchipur, India; well known star of "Tiger-Tiger," "A Tiger Walks," and "Daktari," Sarang was in Squaw Valley to romp in the snow for a TV commercial being shot by John Urie & Associates for McCann-Erickson Advertising; Sarang weighs in at 500 pounds, rode Gondola to Gold Coast Restaurant up on the hill.

## License Fees To County

The unincorporated area of Nevada County has received \$5,431 as its six-month share of the special fees paid by holders of alcoholic beverage licenses.

The payment was made by the state's department of alcoholic beverage control which allocates 90 per cent of all license fee money back to individual cities and counties where it is used to offset the costs of police and fire protection, schools, highways, hospitals and other government service. The remaining 10 per cent goes into the state's general fund where it is used for similar purposes.

The most recent payment was for the six-month period ending Aug. 31, 1968, Nevada County as a whole, including the unincorporated area, received \$9,983 for the period.

A package store beer and wine license costs the owner \$37, with a yearly renewal fee of \$12. A general on-sale tavern license costs \$6,580 originally, with an annual renewal fee of \$580, while a beer and wine only tavern license costs \$234, renewable yearly for \$84.

According to Geo. W. Ososke, executive secretary of the California Brewers Assn., local governments throughout the state as a whole received \$4,564,676 for the latest period which, coupled with the \$7,004,054 received for the period ending Feb. 29, 1968, makes an annual total of \$11,568,730.

"These fees," Ososke said, "are actually all paid by the consuming public in the form of higher retail prices. It is still another example of one segment of the public, buying a legal product in a legal way from a legitimate businessman, being forced to pay a greater proportion of the cost of schools, highways, police and other government services than does a consumer of most other goods."

## Today's Chuckle

A reliable rule for estimating the cost of living is to take your income and add 25 per cent.

## Hassel Wins Turkey Race Ski Opener

Frode Hassel of Auburn and Kitzie Morris of San Rafael captured top honors Sunday at the Annual Squaw Valley Turkey Trophy Giant Slalom ski races here.

Hassel won the men's "A" title with a time of 36.2 to nip teammate Dag Bjorn Ostfold and Brian Degan, South Tahoe, who both clocked 36.5.

The women's "A" race winning time was 36.5 with no other competition posted in the final results.

Twenty-eight gates were included in the 1,000-yard course in Siberia Bowl.

Glory Beaul, Squaw Valley, won the women's "B" title on a 43.0 Cynthia Buchanan and Patty Buchanan of the Reno Falcons finished second and third respectively in 43.2 and 50.5.

Chris Reimers of Mogul triumphed in the men's "B" race in 40.5. Steve McKinney of the Reno Falcons placed second in 40.7 with David Johnson of Mammoth third in 41.1.

Sponsored by the Squaw Valley Ski Club, the event was the 1968-69 opener in the Far West Ski Association. (Pictures on page 6.)

## Trem Talk

By BETTY SHIVELY  
(Trem Talk has been vacationing in Oregon during the Thanksgiving holiday)

November was really a month that didn't stay very long! Have we been that busy? And already we're halfway through December with only eight more days before our Christmas vacation. In this short time, there will be many events and activities for everyone in school and out of school to enjoy.

A new style of play in girl's p.e., has been introduced by the teacher, Mrs. Wilson. The girls are learning to square dance! The only problem is trying to learn the boys parts, right Debbie Wurst? With just a little more practice, we'll have those doe-see-doe's down perfectly.

The sophomore class is organizing a literary magazine. They've been working diligently on it all week so as to have it passed out very soon. The magazine will contain various stories and poems written by the students.

There are many job opportunities opened for boys and girls during the holiday season. Be sure and check the daily bulletin or see Mrs. Norfolk.

at 7:30; Mariposa vs. Incline at 9 p.m. December 13 will be the pay-off games. If the Wolverines win their game Thursday night, they will play either Mariposa or Incline at 4:30 on Friday. The championship games will be played December 14, starting at 6 p.m. Come one, come all to support the Wolverines!

The Wolverine wrestlers lost their match against Herlong last Thursday.

Seniors from Tnt and Tahoe Sierra school took the SAT (Scholastic Aptitude Test) college entrance exam Saturday. The test was scheduled from 8:30-12:30, but the end came earlier—12 noon. The achievement tests (a little more difficult) in certain fields of study were given in the afternoon. The SAT and achievement tests will be given again at TNT January 11.

"O Come All Ye Faithful" to hear the high school band and chorus present the sounds of Christmas. The program begins at 8 p.m. Thursday, December 19, at the high school as the spirit of Christmas is giving, there will be no admission charge. Mr. and Mrs. Small will be conducting the performers.

# Truckee Wrestling Debut

VARSIITY WRESTLING — Tahoe Truckee and Herlong high school varsity wrestlers Kent and Layara have referee Chris Benzanaras on the floor. Tahoe Truckee's Kent took this

match. First matches of the Pioneer League will be held tonight, Dec. 11 at 6 p.m. at Tahoe Truckee High School Gymnasium when Truckee mixes with Lincoln. —Sun Photo

CLOSE BUT NOT QUITE — Truckee-Herlong wrestlers Dunlap and Felton keep the referee busy during seasons first high school wrestling matches at Tahoe Truckee High School last Thursday. Wrestling coach Robert Stein said there are

12 members of the varsity team from 95 pounds through unlimited. Exhibition matches are held between wrestlers who do not make the team and team enthusiasm for all wrestlers is high. —Sun Photo

## Grapplers Drop Meet To South Tahoe

Tahoe Truckee wrestlers lost the season's second match last Monday evening when they were defeated 38-21 by South Tahoe High School. Truckee took five of the 13 matches and forfeited two.

Results of Monday's competition:

- 98 — Rob Wirth, ST, won by forfeit.
- 106 — Keith Vantine, ST, pinned Dunlap, 1:23, 2nd pd.
- 115 — Kent, TT, pinned Dave Borges, 1:58, 1st pd.
- 123 — Wieler, TT, dec. Cleve Schuster, 5-2.
- 130 — Vanderahe, TT, dec. Mark Hartshorn, 8-1.
- 136 — Don Borges, ST, pinned Miles, 1:57, 3rd pd.
- 141 — Pepe Agullar, ST, pinned Harrison, 1:18, 2nd pd.
- 148 — Dave Vandergrift, ST, pinned T. Wissenback, 1:09, 3rd pd.
- 157 — B. Wissenback, TT, pinned Claudio Lins, 1:30, 2nd pd.
- 168 — Steve Sutton, ST, dec. Lockridge, 6-2.
- 178 — Roy Anderson, TT, won by disqualification over George Hartshorn.
- 194 — Bob Harris, ST, pinned Rich Anderson, 0:47, 1st pd.

SCORE TWO POINTS! — Referee Chris Benzanaras scores two points for Herlong wrestler John Overman who has Truckee wrestler Jim Baker on the floor during exhibition preceding team Thursday at Tahoe Truckee High School. Truckee lost to Herlong in initial matches of the season. —Sun Photo

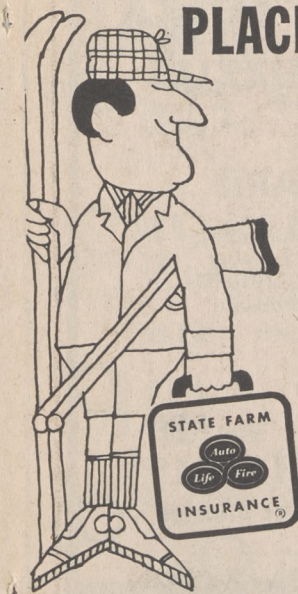

## Gas Rate Hike Fought

TAHOE CITY — Placer County Supervisor William S. Briner of Tahoe City has asked for witnesses and evidence from the north Lake Tahoe area to support opposition to an application by the Southwest Gas Co. for a rate increase here of about 25 per cent.

California Public Utilities Commission has scheduled a rate hearing at 9:30 a.m. Dec. 19 in the Tahoe City Community Center.

Evidence of excessive charges for service and for installation of lines is being sought. Briner is leading community opposition against the rate increase.

## Nursery School Kids Take Field Trips

Youngsters at Truckee Parent Cooperative Nursery School made a field trip recently to the Safeway Store where they viewed "behind the scenes" work. They went into the walk-in refrigerator, saw the store-room and watched hamburger being ground.

A trip to the fire station was supplanted by a fire truck brought to the school by Fire Marshall Maki. Maki demonstrated the equipment, and turned on the siren and red light for the children. Each child wore a fire hat and tried the oxygen mask.

Next field trip will be a tour of the U.S. Post Office. The children are building their own play post office at the school.

The parent group has announced award winners as Mrs. Hadley, doll and wardrobe; and Karen Saylor, matchbox city and service station.

### Horsemen Party

Members of Truckee - Donner Horsemen will hold a Christmas Dinner dance Friday, Dec. 20 at Donner Lake Lodge.

Cocktails start at 6:30 p.m. and dinner will be served at 7:30 p.m. There will be a live orchestra to play until "the wee small hours."

The event is open to the public and families are especially welcome. Anyone interested is invited.

Anyone under 21 years old is asked to bring a gift for exchange.

### Muriel Frey Misses Friends

Muriel Frey writes she misses the youngsters—and we'll bet the children at Truckee Elementary School miss her.

Mildred, the school cook, will be gone several weeks to convalesce following a nine-day stint in the hospital. She is staying with her children.

Mildred also wants to thank everyone for the many gifts and cards she received during her hospital stay and to wish all a Merry Christmas. She said she is looking forward to "being back with the children at school."

### Building Finished

The California Department of General Services has announced completion of a one-story sub-shop building at Truckee Division of Highways maintenance station.

The concrete block structure was built by J. M. Ryan of South Lake Tahoe at a cost of \$244,082.00.

### Last Tuesday Was A Big Day

Tuesday last week held double and triple surprises in the Merica, Borden and Ellis households in Truckee.

Terry (Mrs. Ross Merica) gave birth Tuesday to a son, Bart Wiley, only to be surprised 14 minutes later by the arrival of Bart's twin brother Bret Wesley. This all happened at Tahoe Forest Hospital.

By arriving on this particular day, the twins really shook up the family. It was "grandma" Michael Ellis' birthday (Mrs. Jack) and Aunt Kitty's (Mrs. Frank Borden) second wedding anniversary. Jack and Michael are proprietors of the Alpine Riverside Hotel—and Terry and Kitty are the Ellis' daughters.

## North Tahoe Chamber Pot-Shots:

By  
BETTY LAYTON  
Winter Carnival Booster Buttons have arrived. They feature a dog driving a snowmobile in a blue background and are most attractive. You'll want to buy yours to help finance the Winter Carnival events. \$1500 prize money is given to the dog mushers in addition to trophies and the purchase of the pin will assist. The button is required for admission to the snowmobile and dog sled races.

Letters were sent last week to a large number of dog sled drivers inviting them to participate in the 8th Annual Dog Sled Races, Jan. 25 and 26. This year's races will be held in the meadows in Squaw Valley, thanks to the generosity of the Poulsons, who will be donating their equipment for use in setting the trails. Dave Walling, chairman, stated that he expects a much larger 5-dog sled entry than in previous years. He said that the drivers are usually not as experienced as the large cross-country team drivers and there are more mushers getting into dog sled racing.

This year, as was done last year, the chamber will put out a joint program for the Snowball and "Miss Sierra Snowflake" Beauty Contest, the Snowmobile Races and the Dog Sled Races. The program will feature stories of the past events and give the current information on the events.

The chamber encourages businesses to take out an ad and at the same time they will be sponsoring a dog sled team — either 3-dog, 5-dog or cross country teams. In this way, the visitors from outside the area will see who the leading businesses are and will also be able to follow the races. It is important that the program gets underway as soon as possible and the chamber is asking for ads by this week.

The chamber office has been extremely busy with referrals

the past weeks. In fact, in placements they are about a month ahead of last year. Of course the majority of calls are for holiday accommodations and there are still many motel rooms available during the two week holiday period. The chamber member motels are offering a special reduced ski lift package for the mid-week skiers, NOT applicable during the holidays. There is a tremendous savings in both lodging and skiing for the person who can ski any one of the mid-week days. The motel guest does not have to stay the full five days to take advantage of the special package. It applies to any one or more mid-week days. 100,000 copies of the new SKI TAHOE NORTH brochure were printed and the Chamber has distributed about 70,000 of them to-date.

The Executive Committee (officers of the chamber) met last week to make preliminary plans for the year's program of work. President Damanchki stated that he would urge each director to represent the chamber members in his respective locality and bring to the board of directors any ideas, problems or suggestions concerning the area. In this way, the cham-

ber will become more involved with local activities and will become more a focal point in unifying important needs in the orderly growth of the North Lake Tahoe Area.

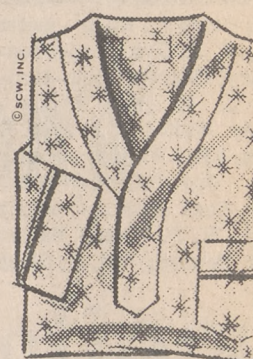

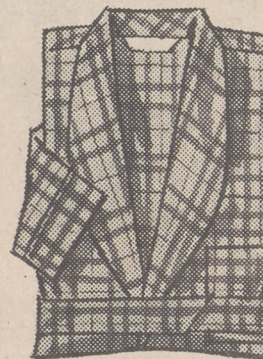

Just off the press is the U.S. Chamber of Commerce's "Policy Declarations." The document shows where business stands on major national issues. It shows basically what business recommends and what should be done to resolve today's problems for the good of the economy and the well-being of the people. The national chamber's job is to build a greater public acceptance of the business point of view.

The Ambassador Committee of the chamber met Friday with the following persons present: Ben Damanchki, Gordon Reddall, Cort Parker, Bob Scott, Judy Thatcher.

Their purpose is to involve more of the businesses in chamber work and call on new and present chamber members. They proposed that the chamber send out a questionnaire to all present members requesting their suggestions as to what they would like to see the chamber include in their program of work for 1969.

# Incline Ski Club Party Goers "Think Snow"

NEW INCLINE RESIDENTS — Betty and Ray Foley, right, are enthused about their change of residence from the Bay Area to Incline Village with Incline's winter of snow and skiing. The

new members of Incline Ski Club are shown at Saturday club party with, from left, Mae Smith, Scheri Jones and Raymond Smith. — Sun Photo

OFF THE CUFF — Business was strictly "off the cuff" Saturday when members of Incline Ski Club welcomed guests and new members at cocktails and dinner at the Chataux. Shown at the head table are, from left, Wes Howell, president; Dee Cunningham, secretary, and John Gilbert. — Sun Photo

COCKTAILS FOR FIVE — Jack Sheets, Fred Facciolla, Tacey Sheets, Betty Facciolla and John Poochoff, from left, discuss Incline Ski Club party Saturday evening at Chataux. The

"Think Snow" party did bring a few reluctant flakes dropping from the sky before the party broke up. — Sun Photo

## Truckee Lodge Holds Century Installation

Truckee Lodge No. 200, F. & A. M., will hold its 100th Installation of Officers on Saturday Dec. 14 at the Masonic Temple in Truckee.

Officiating will be F. E. "Skeet" Thompson, installing officer, Zeph Rose, installing master of ceremonies, and L. W. "Skip" Ferdinand, installing chaplain. All are past masters of Truckee Lodge.

C. G. (Buck) Shane will be installed worshipful master with Robert S. Chritchley, — senior warden; Gerry C. Eden — junior warden; J. D. (Dan) Anderson — secretary; Charles Rich — treasurer; C. P. (Pat) Shane — Marshal; Walter N. Pope — chaplain; Ellis Whitley — senior deacon; Joe Pilley — junior deacon; Earl Smith — senior steward; W. D. (Doug) Baxter — junior steward; Wm. E. Staup — tyler.

## School Choruses To Be In Concert

Choruses from Kings Beach, Tahoe Lake and Truckee Elementary schools will be combined with the Tahoe Truckee High School band and chorus for the annual Christmas Concert this year.

The concert, presented by the Tahoe Truckee Schools music department, will be held Thursday, Dec. 19 at 8 p.m. in the high school gymnasium. Program will be traditional Christmas music.

The event is open to the public free of charge.

## Pre-School Kids Christmas Party

All pre-school youngsters and those through the fourth grade are invited to attend the annual Christmas party December 14 from 10 a.m. to 12 noon in the multipurpose room of the elementary school, sponsored by the Fire-Ettes.

Walt Disney's movie, "Ichabod and Mr. Toad," will be shown, followed by the visit from Santa Claus who will present gifts to the children.

SKIS AND SKIING — Dinner table conversation Saturday ran to skis and skiing as Carol Borino, Elaine Bannister and Dale Bannister joined other Incline Ski Club members at dinner party Saturday evening. Some 50 members and guests attended the event geared to getting the skiing season underway. — Sun Photo

## Sierra Bible Church Choir Plans Concert Featuring Peterson's "Love Transcending"

As a musical contribution to the community enjoyment of the Christmas season, the Choir of Sierra Bible Church, Truckee will present "Love Transcending" by composer John W. Peterson, Sunday evening, Dec. 15 at 7:30 p.m. in the auditorium of old school at the Tahoe-Truckee School District headquarters building, Church Street in Truckee.

This musical interpretation of the Nativity, described as

"a cantata of the greatest story of the ages" is a skillful blending of the familiar music of Christmas and the modern expressions of harmony. Such selections as "That Beautiful Name," "The Birthday of the King," "We Three Kings," "O Holy Night" and "Away In a Manger" are expressively tied into the cantata theme, "Love Transcending."

Guest conductor for this performance will be Mr. Dave Smythe, of the local school musical faculty. He will sing tenor solo parts, and other soloists will be Mrs. Lou Preston, soprano, Mrs. Dan Craig, contralto, and Mr. Bob Hill, baritone. Dan Craig will serve as narrator, and Mrs. Carl McMurtrey will accompany the choir at the piano.

There is no admission charge for this musical program. The Pastor, the Rev. J. Harold Howard, and the congregation of Sierra Bible Church cordially invite the public to attend.

## Major Timber Land Open

SAN FRANCISCO — Virtually all forest land of major timber-owning firms in California is open to public fishing, more than 90 per cent is open to hunting and this industrial forest base constitutes an important recreation resource for most categories of recreation use, according to a survey made by the American Forest Institute, E. J. Hodges, AFI president,

announced in San Francisco this week that 3,733,361 acres of timberland owned by 24 companies reporting to AFI in California are largely open to camping, swimming, picnicking, hiking and other recreation except during extreme fire weather and in areas where timber-harvest operations or other special conditions create hazards.

## NEW HOMELITE! SNOWMOBILES

## Fast and Frisky!

The totally new HOMELITE SNOWMOBILE really moves. Great for sport. Out-maneuvers other Snowmobiles in deep powder or hardpack. Cruises with mobility. Zips around obstacles with new ease. This Snowmobile is slimmer, lighter. Perfectly balanced with a low center of gravity. And you don't have to pay for a lot of power to send this lightweight beauty skimming across the snow! # Sierra Skiing

By Vi & Carson White  
Soaring behind, the U.S. Ski Team pulled an upset over the world champion French squad at Aspen in the American-French Challenge Cup winning the dual slalom 11 to 9 in points.

Rich Chafee of Rutland, Vt., put the Americans over the top in the next to last race by tying Patrick Russel of Grenoble. Dual slaloms are proving successful due to their particular competitive nature. Racers are pitted against each other on parallel runs instead of racing a clock.

Judy Nagel of Enumclaw, Washington beat Florence Sturser; Erica Skinger of Stowe, Vermont topped Isabell Mir; Kiki Cutter edged Michele Jacot.

After a tie, Penny McCoy of Mammoth lost to Annie Famose by less than a second.

Barbara Chochrane crossed the finish line ahead of Ingrid LaForgue.

Billy Kidd lost by a hair to Allen Penz.

Guy Perillat took Jere Elliot's measure.

Spider Sabich of Kyburz, Calif., lost to Jean Noel Augert.

Hank Kashiwa of Old Forge, N.Y., tied Henri Duvalier to cinch the American win.

This weekend will mark the start of a United States Ski Association Regional Training Camp for boys from the Far West, Pacific Northwest, Intermountain and Alaska associations at Sun Valley, Idaho. A giant slalom race on the 22nd and a downhill the day after will conclude the training for young racers.

Starting on December 21, United Airlines will be initiating a jet ski plane that will make a stop at the Reno Airport on the flight from Los Angeles to Boise, Idaho. There, connections can be made with Janss Airways or Air West to the Sun Valley airport just a few minutes from the popular resort.

Weather and snow conditions permitting, a group of hardy skiers plan to make the run down old Highway 40 the night of December 28 at 8:30 and end up at Donner Lake Lodge for a special dinner. Start gathering those flares, it takes at least two.

Weekend skiing was a bit poor, the little dusting of snow really didn't help much and those pesky rocks are still ruining ski bases. Alpine Meadows ran their Summit, Round House and poma lifts; Boreal Ridge, their T-bars, Sugar Bowl, Lincoln, Nob Hill and little rope tow; Squaw Valley ran Shirley Lake and the new lifts off the tramway area in the higher areas.

The FWSA teaching clinics at Alpine Meadows and Squaw Valley had at least 50 participants each, and the California Ski Teachers clinic at Boreal Ridge had the same.

Fifty ski patrolmen from the East Bay Patrol worked out at Boreal Ridge, two bus loads of South Gate Recreation District Skiers of Sacramento came for their first trip as did the students from American River College. Night-time skiing at Boreal will begin as soon as more snow covers the slopes.

The special PG&E party Wednesday evening was very successful and their bright lights could be seen several miles down Interstate 80.

It was a clear moonlit night and after a gay cocktail party,

delicious dinner, and several speeches by officials of the PG&E, U.S. Forest Service, Boreal Ridge Ski Area, and the Auburn Ski Club, lights were dimmed and the 300 guests walked out on the huge deck to watch two dozen skiers come down the mountain with colorful flares.

Most of us kept snug under the powerful electric overhead heaters outside. The slopes were later open to skiers after the torchlight parade.

The Sierra Club will be holding classes in skietiquette, etc., on their rope tow slope behind the lodge at Donner Summit this weekend. Manager George Todoroff says he had over 100 members at the lodge over Thanksgiving weekend.

Squaw Valley's annual Turkey Race that was postponed a week because of bad visibility had over 40 competitors Sunday on the Siberia Bowl course.

Frøde Hassel of Auburn Ski Club had the fastest time down the 28-gate giant slalom course, 36.2. Kiti Morris of Mogul-Squaw Valley, another Class A racer, ran down in 36.5 on the shorter women's course.

A tie for second in Class A, Dagbjorn Ostvold, Auburn Ski Club and Brian Degan of Tahoe Paradise College, 36.5.

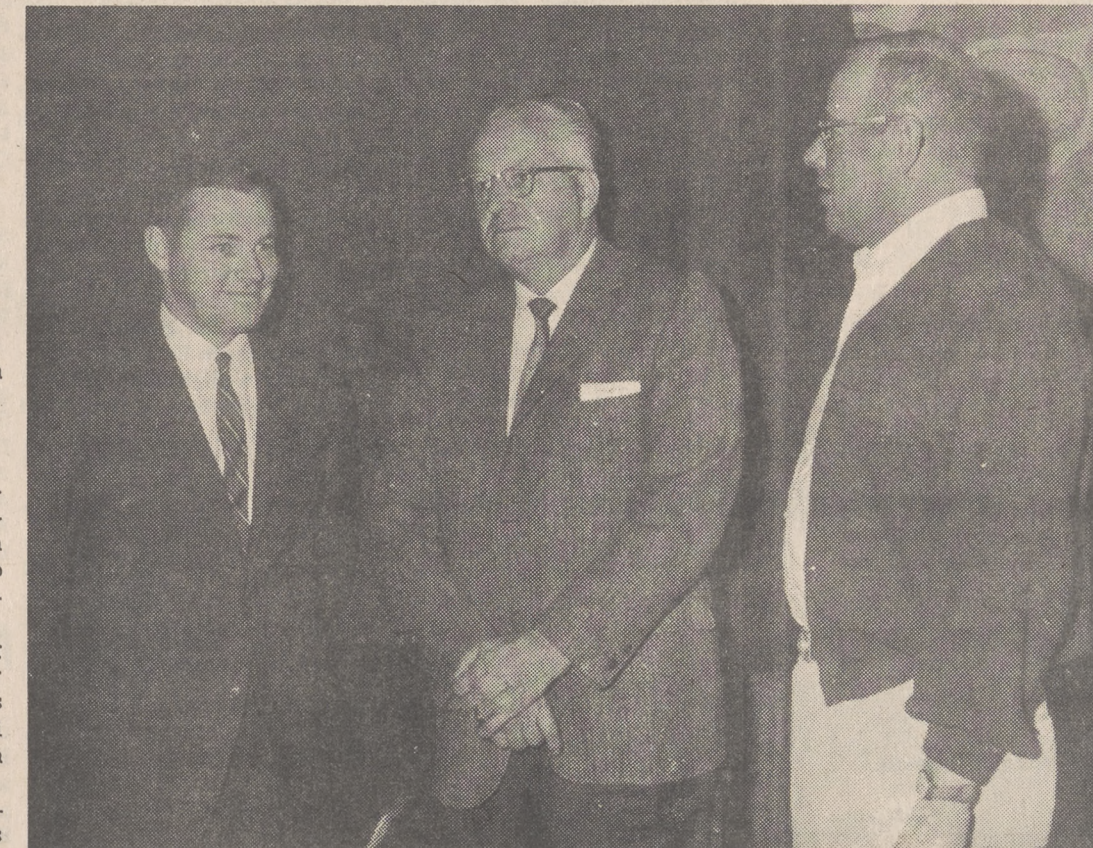

Class B winners were Chris Reimers, Mogul, 40.5; Steve McKinny, Reno Falcons, 40.7; David Johnson, Mammoth, 41.1. Women: Glory Beall, Squaw Valley Ski Club, 43.0; Cynthia Buchanan, Reno Falcons, 43.2; Patty Buchanan, Reno Falcons, 50.5.

Squaw Valley Ski Club officials had a chance to work together for the Turkey Race in preparation for the World Cup races scheduled at Squaw Valley March 1 and 2.

Bob Beattie will be looking over the slopes this week for the big races as one of his duties for the United States Ski Association. Formerly coach of the U.S. Alpine squad, now head of team promotional programs, Bob has announced his resignation will be effective April 1. He worked hard to establish our teams better seeding in international races.

GREETED BY STAFF - Congressman Bizz Johnson was welcomed to Tahoe Forest Hospital Saturday by, from left, hospital district director Bill Vail, Mrs. Kate Miles of the Auxiliary and two staff nurses, chief of staff Dr. Edmund Wilkins, and administrator Arnold Intorf. Congressman Johnson had not visited the modern Truckee facility since addition of its new wing. -Sun Photo

AT DONNER MEMORIAL STATE PARK - Bizz Johnson met with local Truckee-Donner businessmen and public agency administrators Saturday morning, including, above, Fred Hodder, left, and Don Westbrook, manager and chairman of the board of directors of Truckee Sanitary District. Sun Photo

"I'M HERE TO LISTEN AND ANSWER" - Harold T. "Bizz" Johnson, California Congressman from the second district, speaks at public luncheon held Saturday at Schubert's in Kings Beach. Johnson is on a 20-county tour of his district to meet people, discuss local problems and explain Congressional activities. He returns to Washington, D. C. on Jan. 3 for the opening of the 91st Congress. -Sun Photo

LOW BIDDER — Don Glanville, left, owner of Glanville Construction Co., San Lorenzo was the low bidder on the Tahoe City Public Utility District's 2.5 million gallons per day treatment plant and out-of-the-basin disposal line to the Cinder Cone, three miles north of Tahoe City. Above he gets the nod from Randy Stowell, TCPUD engineer, center as Martin Spitsen, president of the district board looks on.

## Low Bid Of \$917,604 Gets Tahoe Sewer Job

A low bid of \$917,604 for the construction of a 2.5 million gallon per day sewage treatment plant at Tahoe City and three-mile export line to a cinder cone, out-of-basin disposal site was Tuesday approved at a joint meeting of two

North Tahoe sewer district boards. Approving the bid, made by Glanville Construction Co., of San Lorenzo, were the boards of the North Tahoe Public Utility District (NTPUD) and the Tahoe City Public Utility Dis-

trict (TCPUD). The two boards met in a two-hour session to go over the details of the bids and work to be accomplished in the joint project, part of the first phase of North Lake Tahoe Sewage Export Plan B.

## No Placer Moonlight Charges

(Continued from page 3) ning Associates.

"These men are policy makers of this county. When are they conducting their business?" asked Duff.

Duff also noted that if these county planners could solicit or negotiate for private business from neighboring counties, then the staffs of those counties could also form companies and do the same with Placer County.

Answering to questions, Barber said Western Planning has had or is having negotiations with neighboring Sierra and El Dorado counties. He said his private business is conducted during hours he is not working for the county, during vacations and on weekends.

"In county service I work 1800 yours a year regular time and put in an additional 500 hours (about three months) which I don't see being reduced," said Barber. "So the county is being well repaid by my services."

Duff also raised the question of "what is conflict of interest" to which Chairman Barclay replied it was spelled out in the ordinance of copy which was available. Duff concluded with the statement that by letting a county employee (Barber) "do this, we are setting a precedent."

"It is not illegal, it is a question of judgement and the fact the Board of Supervisors allows it to go on."

In returning the meeting to its agenda, Barclay asked again for any specific charges but none were forthcoming.

In regard to the adequacy of the present ordinance on moonlighting, Reba Jensen, came before the group to say she believed that it was entirely satisfactory.

In calling for adjournment, Chairman Barclay then suggested that "in the future people say what they want to say through the proper channels."

"We've met this evening at the expense of the taxpayer,"

"To what purpose — I don't know."

In an interview after the meeting Duff revealed he felt the question of the planners and their privately owned planning company was a matter of policy.

"I'm not talking about moonlighting per se. This is a policy decision. We are talking about ethics," said Duff. Excerpts from the Placer County Ordinances which pertain to moonlighting are as follows:

"Section 14.70 — Moonlighting — No employee shall be permitted to accept employment outside of county service if: "The outside employment leads to a condition resulting in grounds for discipline under section 14.2210.

"The nature of the work is such that it will reflect unfavorably on the employee, the department or the county of "The additional duties to be performed are in conflict with duties required by his County Services."

"Section 14.2210 — Grounds for discipline — The following shall be grounds for disciplinary action:

"Unauthorized absence; conviction of a felony or any criminal act; conduct unbecoming an employee in the public service; disorderly or immoral conduct; incapacity due to mental or physical disability; incompetence or inefficiency; insubordination; the use of intoxicating liquor or beverages or intoxicated while on duty; neglect of duty; negligence or, willful damage to, waste of or unauthorized use of public supplies or equipment; willful violation of Civil Service Laws and procedure; failure to establish residence within six months of employment or to maintain such residence during the employment; failure to meet reasonable work performance standards and requirements; discourteous treatment of the public or other employees; improper political activity."

## Nevada Acts To Insure Lands For Tahoe Park

CARSON CITY — Nevada this week will file a "complaint in condemnation" to make certain it can go to court to obtain North Canyon for the Lake Tahoe State Park if negotiations fall with owner Capt. George Whittell of Woodside, Calif.

W. Howard Gray, a special deputy attorney general, stressed the complaint did not mean the state planned another condemnation suit to get more Whittell land in the Tahoe Basin on the Nevada side.

"We plan to file the complaint," he said, "simply because legislative authorization to condemn property at Tahoe for the park expires Jan. 1."

Elmo DeRico, director of the State Department of Conservation and Natural Resources, said every attempt to negotiate with Whittell for the purchase will be made. "The suit is no indication we have been unable to negotiate nor an indication we will be unable to negotiate. It's just assurance for Nevada we can move in the courts if one or both of these problems occur."

Nevada went to court a year ago to obtain 5,344 acres of Whittell-owned land. With interest, a jury decided it was worth about \$3 million. The state now wants 1,587 acres of North Canyon which join the state park for off-shore day use recreation and possible camping sites.

The North Canyon area sought by the state includes the region beginning at the Ormsby County boundary to the Marlette

Lake property already owned by Nevada. It is bounded on the west the ridge of North Canyon and on the east by the U. S. Forest.

Gov. Paul Laxalt isn't content to ask the legislature for an extension of time the state can condemn Lake Tahoe property if necessary to enlarge the state park. He wants to lawmakers to enlarge the area where Department of Conservation and Natural Resources has the authority to condemn, if necessary, land for park purposes.

North Canyon isn't all the governor is anxious to obtain. Laxalt also will the lawmakers next month to enlarge the area where the state can condemn for park purposes in the Tahoe Basin.

Douglas County was immune when the original Tahoe Park Bill was passed at a special session in 1966. The governor now wants authority, if the necessary money is available, to include in the Tahoe Park the so-called "Spencer Lake triangle" in Douglas County.

DeRico said this could amount to between 640 acres up to about 1,000 acres in the triangle former by U. S. Highway 50 and State Route 28. Nevada, after paying Whittell for the 5,344 acres a jury 18 months ago said was worth \$3 million, now has about \$2.7 million to pay for any additional park land it may obtain.

Regardless of whether the state is able to negotiate with Whittell for North Canyon or if the courts again must determine the value of the land, Nevada is going to need more money—

much more—if it is to set aside all the land Laxalt thinks is necessary for the benefit of future generations.

## Sewage Problem In San Francisco?

Sewage and garbage disposal are twin headaches which afflict most of America's growing cities including San Francisco.

This city is under heavy pressure from the Bay Region Water Quality Control Board to improve its sewage disposal system and has only two years in which to find a new way to dispose of its garbage.

The sewage problem is complicated by the fact that San Francisco is the only city on the Pacific Coast having a single-pipe sewer system which handles both sewage and rain run-off. This causes complications in winter.

The cost of meeting the Quality Board's standards has been estimated as high as \$355 million and the local Board of Supervisors is seeking in every possible way to reduce the cost.

Of two proposed substitutes for the present fill-and-cover garbage disposal program in the south bay — incineration and rail hauling to remote desert areas, the latter is currently being favored.

Incineration would require the city to invest \$20 million in an incinerator but the Western Pacific Railway has offered to haul the garbage 375 miles to eastern Lassen County for only a slight increase in the cost of garbage collection.

## Bizz Reviews The Impact Of Federal Education Aid

"Education, or the lack of it, knows no county or state boundaries and therefore is of national significance."

So commented Congressman Harold T. (Bizz) Johnson of the Second, mountain-valley counties, District in reviewing the impact of federal assistance to education as a result of the 1965 Elementary and Secondary Education Act which he supported during the 89th Congress.

Congressman Johnson, noting that federal aid to education has been recognized in one form or another for more than a century, said that without the various programs, the burden on the local property taxpayer would be significantly greater if the schools were to meet their obligations through property taxes alone.

As an example, Congressman Johnson noted that for the current school year, elementary

and secondary schools in the State of California will receive nearly \$75,000,000 under the 1965 ESEA allocations. The bulk of this, some \$71,767,000, will be grants to local school districts.

In the 20 counties of the Second Congressional District, this would amount to more than \$2,250,000. A county-by-county breakdown follows:

Alpine, \$4,746,29; Mono, \$2,301,23; Amador, \$15,964,80; Nevada, \$78,241,93; Butte, \$435,933,85; Placer, \$252,704,16; Calaveras, \$31,785,78; Plumas, \$40,703,06; El Dorado, \$122,972,15; Shasta, \$335,836,21; Inyo, \$50,914,78; Sierra, \$7,910,49; Lassen, \$39,120,96; Siskiyou, \$127,862,27; Madera, \$430,905,90; Tehama, \$143,107,94; Mariposa, \$25,169,74; Trinity, \$26,032,70; Modoc, \$38,258,00; Tuolumne, \$76,947,48.

## Announce Wilma Small Betrothal

The engagement of Willma Small, daughter of Mr. and Mrs. Richard Miles, was announced at a family Thanksgiving party held at the Miles' Truckee home. Miss Small is also the daughter of the late Willard Small of Chico.

Miss Small will marry Clifford Reed Jr., son of Mrs. Margie Reed and the late Clifford Reed of Bricefield, Calif. Wedding plans are indefinite.

The bride to be is a 1968 graduate of Tahoe Truckee High School. She is attending Moore's Business College in Sacramento. Her fiancé, a graduate of South Fork High School in Miranda, is employed by Fibre-board in Truckee.

## Approve Job System Study

Placer County Board of Supervisors has approved a work system study to see if a county department of finance would solve some of the county's accounting troubles.

Supervisor Robert Radovich proposed the formation of the finance department. Supervisors agreed the present county system is "antiquated."

James E. Williams, county executive, said the work system study is needed because "existing systems are fragmented, do not contain the necessary controls, nor make the optimum use of the county's data processing equipment."

The study will be conducted by Lyvriand, Ross Bors and Montgomery, San Francisco accountants, at a cost not to exceed \$20,500.

## Need Scout Volunteers

Rex Anderson, Truckee neighborhood commissioner for Boys Scouts of America, has announced there is an urgent need for men to volunteer as Scoutmasters and assistant scoutmasters.

Scout district commissioner Richard Austin of Soda Springs and his assistant William Files of Tahoe City, say the volunteer "has the rare privilege of helping in the character building of our young people" when they participate in the program.

the slogan for which is "Scouting rounds out a boy." They noted the Scouting program is for boys from 11 to 18 years old.

Anderson said duties of the Scoutmasters and assistants include assisting the boys in programming, helping them achieve the goals of scouting, organizing field trips and providing transportation for the trips and outings.

Anyone interested is asked to call Anderson at 587-3342, Austin at 426-3656, or Files at 583-3164.

## Episcopal Church Women To Meet

December meeting of St. Patrick's Episcopal Church women will be held Thursday, Dec. 19 at 8 p.m. at the vicarage. There will be a pre-Christmas party and gift exchange.

**Notes - Deeds of Trust 1st & 2nd - Equities Purchased For Cash T. L. JAMES P. O. Box 80 Tahoe Vista**

HOSPITAL OPEN HOUSE — Mrs. Steve Landa of Tahoe City and Reno and her uncle Bert Etchechegon, from left, are shown kitchen at Reno Convalescent Center by Administrator Mrs. Lucille Wahrenbrock while Cleo Gresham, cook stirs at the stove. The pair was among visitors Sunday during the center's open house. Patients and staff greeted visitors, served refreshments and showed and sold patients' craft work. Crafts included hand tooled leather goods, hand-embroidered and handpainted linens, centerpieces and holiday decorations. Proceeds from sales go toward furnishing needs of patients.

## Squaw Firemen Hold Feed

"It's our way of saying 'thanks,'" said a Squaw Valley Volunteer Fire Department spokesman about a spaghetti feed and song fest held last weekend at the Bear Pen.

Some 80 persons gathered for the event. Special guests were members of the Squaw Valley Sporting Club, Squaw Valley Property Owners Association and others from neighboring fire departments and local government.

## Lake Elevation Now 6,226 Feet

The elevation of Lake Tahoe Friday was 6,226.86 feet, according to a measurement by the Sierra Pacific Power Co. The report lists a snow depth at five inches and 174 cubic feet per second being dispersed into the Truckee River.

Last year on the same date the lake elevation was 6,227.78 with a snow depth of 23 inches and the cfs was measured at 199.

Arctic Cat is the only one with Torsion Spring Suspension that smooths out the roughest terrain.

## West Shore Notes

By ELLEN ATTARDI

Santa Claus was the star attraction at the annual Christmas party of the Tahoe City Women's Club which was held last Thursday at the Chataux at Incline Village. Santa (Dave Stollery) passed out presents and collected thank-you kisses from the more than forty members and guests present.

After the buffet luncheon, the guests enjoyed a fashion show which featured ski and other fashions modeled by Barbara Dowling and Mary Lou Johnston of the Sierra Junior Women's club, and Margie Cole, Jean Scott and Sue Dwyer of the Tahoe City Women's Club. The fashions shown were from Incline Fashions and Lugli and Helen Foeger's Sports Shop in Ski Incline.

Mitzi Stollery presided over the festivities and the program was arranged by Marjorie Spafford.

Visiting in Carmel last weekend were Bob and Marilyn Fugazi and daughter Lynn of Agate Bay. They were guests of Dr. and Mrs. Rod McArthur and Bob's parents, Mr. and Mrs. Andrew Fugazi.

The annual Christmas program of the Tahoe Lake School will be presented on Wednesday, December 18 at 8 p.m., according to school secretary Unis Hoff and the theme this year will be "A Mountain Christmas."

Elaine Kahn was hostess to a group of friends at a bridge luncheon at her Highlands home last Thursday and high scorers of the day were Leah Hopkins and Beccy Shontz.

Visiting with his parents, the Jack Holley's, at their Dollar Point home this week is Bob Holley of San Francisco.

A group of local young people, excited by the idea of and the performance of "Sing Out Sacramento" held at the Tahoe Truckee High School last Saturday evening, is organizing a local "Sing Out" group. The first rehearsal will be held this Thursday evening at the Tahoe Truckee High School from 7 to 9 p.m. and anyone from 15 to 22 years of age with an interest in music is invited to participate. There is a need for instrumentalists of all kinds as well as vocalists.

The "Sing Out Sacramento" project is an outgrowth of "Sing Out America" which was started in 1965 and the Sacramento group is one of many groups established on high school and college campuses and military bases. The avowed purpose of the groups is "to show the world we care about tomorrow" and "we're ready to be challenged by hard work and sacrifice."

Any adult or service club who would like to assist our young people with this project is advised to call Mrs. Jeanne Morgan at 525-7173.

Grown-ups and children alike participated in the Advent Festival which was held last Saturday after services at the United Church of Christ in Squaw Valley.

Refreshments and group singing, led by guitarist Carl Felich, were also enjoyed by the group.

Get well quick wishes to Mrs. Ned Long from her many friends in the community. Mrs. Long is hospitalized at Washoe Medical Center in Reno.

Vacationing in La Puente are Johnny and Cherry Johnson of Tahoe City.

A generous gift of 35 art books was made by the Women's Club of Tahoe City to the Tahoe Lake School and the books were presented to the school library last week. The women's Club has long been active in both community and school art projects.

The Soroptimists are holding their annual Christmas party this evening (Wednesday, December 11) at the California Alumni Center near Tahoe City. It will be a "Soroptimister" night with husbands being honored at the dinner dance. There will also be an exchange of gifts.

Larry Lindsey of Agate Bay celebrated his 7th birthday on Monday, December 9.

Just returned from an eight-week instructional training program is Ron Epperson of Tahoe

## Truckee On Talk Agenda

City. Ron is a member of the Placer County Sheriff's Department and is stationed at the sub-station near Tahoe City. The training program was held at the Feather River Police Academy at Oroville and was attended by 19 other deputies, including three from Placer County.

Vacationing in southern California this week are Mr. and Mrs. Dave McBride and son Michael of Tahoe City.

Off on an exciting South Sea Islands holiday cruise are Mr. and Mrs. Peter Hack of Tahoe Park. The Hack's left last Sunday on the five weeks' cruise aboard the Matson Line's "Mariposa" and among their ports of call will be Bora Bora, Tahiti, New Zealand, Fiji and Hawaii.

Before sailing, the Hack's were hosts to a Bloody Mary "bon voyage" party on board ship.

The twenty-fifth wedding anniversary of Jack and Bern Franklyn of Incline Village will be celebrated in great style on Wednesday when they will be guests of honor at a party hosted by Woody and Ruth Burris at their Incline Village home.

The schools of the Tahoe Truckee Unified School District will hold minimum day on Thursday, Dec. 12, so that all faculty may participate in a workshop to be held at the high school that afternoon. Experts who will lead the workshop discussions are Dr. Alice Scofield, Miss Barbara Hancock and Miss Ruth French.

Tom and Betty Nott of Dollar Point entertained a group of friends at a buffet dinner and bridge party at their home last Sunday evening. Winning high score of the evening at the bridge tables was Mrs. Arnold Intorf.

Nate and Ginny Topol of Tahoe City are proud parents of their second daughter, Bee Jay, who arrived at Tahoe Forest Hospital at 3 a.m. on November 23. Birth weight was six pounds, one and one half ounces. Bee Jay was welcomed home by sister Tami.

Mrs. Greg Engelhard of Incline Village is a patient at Washoe Medical Center in Reno. Speedy recovery and back home soon wishes go to Ginny from her many friends here.

## Nevada County Has Increase In Bond Sales

California tops the Nation in the rate of U. S. savings bonds sales increase, said savings bonds chairman Willard J. Rose for Nevada County.

"Total cash sales of E and H savings bonds, combined with freedom shares, amounted to \$336,681,894 during the first ten months of 1968. This is 7.5% above the same period of last year," he reported.

"During the month of October sales of savings bonds and the freedom shares amounted to \$36,710,230, compared to \$34,107,084 of the same month of last year."

"Nevada County recorded E and H savings bonds sales and freedom note sales of \$15,332, which boosted accumulative county sales to \$204,945."

## Here's Riley

By ERNIE RILEY

It's easy now days to put a tiger in your tank, but putting three large Bengal tigers on the ski lifts for a ride to the top of Squaw Peak is another matter.

A few days ago a company making TV commercials in Squaw Valley wanted the tigers on the peak for pictures. The crowd enjoyed watching the trainers lead the tigers across the snow to board the lifts. What beautiful animals. Several novice skiers made record runs during the day and it must have been somewhat surprising to them to see the tigers up on the slopes. We'll watch for the commercials. Bound to be better than most of the shows.

There are lots of ways to make a buck. I'll bet you didn't know there is a man at Donner Lake who raises bees. Our friend keeps his hives near Fairfield because the bees don't care much for the winter weather at Donner.

During the summer each hive has about 100,000 bees, but when he gathers the honey in the fall the population drops to about 50,000 per hive. He brings the honey to Donner Lake where he processes it in a bee kitchen. It's great, but I wonder who counts the bees.

Squirrels stow their goodies in the strangest places. The mother-in-law retrieved her after-ski boots from the basement at the first snow. One of them contained about a pound of pine nuts. The child bride claimed the nuts, which we now have planted around our place. Wonder why the government doesn't collect a fee from the squirrels for gathering pine nuts like they do the Indians?

I love Christmas. The trees are shining in the windows, lights are on wherever we go, bells are ringing, people are calling out "Merry Christmas" to one another. It looks like everybody loves everybody right now.

Wouldn't it be great if we could carry all this love for each other through the year instead of just displaying it at Christmas time? Let's try. Then perhaps this love would spread throughout the world and bring peace and good will to all men.

Somebody please tell the child bride I want a portable typewriter for Christmas.

# Night Skiing Premier At Boreal Ridge

Now they've done it. Armchair skiers can bask under infrared heaters in freezing temperatures and watch their more ambitious 'brothers' schuss, slalom or just plain ski under a blanket of darkness illuminated by some 57,000 watts of electricity.

Where is all this? Over at Boreal Ridge on the top of Donner Pass. And if you doubt it, just ask any of the 30 or so skiers, each bearing a lighted red torch, who came zooming down Boreal's 2500 foot run in front of the Lodge Wednesday night.

Or ask any of the 300 guests attending the resort's night skiing premiere. Many of them tried the slopes when the huge lights were turned on after the torchlight parade.

Featured speaker at the dinner preceding skiing was Norman B. "Ike" Livermore, Jr., chairman of the California Bi-state Lake Tahoe Regional Planning Agency. He is also California State secretary for

resources. Livermore noted that studies indicate skiing will increase by 40 per cent between 1960 and 1980. This poses the problem of finding ways "for California's land and her basic resources, her forests and beaches, her waters and her mountains, to absorb those pressures and all the other pressures of our society and our economy," Livermore said.

"In developing night skiing here at Boreal Ridge, you are dealing creatively with one major aspect of this problem."

"This . . . is only the beginning in a vastly expanded use of our California snow areas for many different kinds of snow sports that will bring many, many more people into these areas in the winter months."

In speaking of ever-expanding snow recreation, Livermore noted the growth of interest in crosscountry skiing, snowshoe hiking trips and snowmobiles.

He said a survey shows a quarter million snowmobiles in

use in North America today and 1,000 snowmobile clubs in the United States alone.

"Skiing behind snowmobiles could well become a winter version of summer's water skiing," said Livermore. "This has many possibilities, cross-country touring and racing, closed course racing, slalom courses."

The conservationist also foresees "ski-bobbing" (bicycle or runners) might become a family sport in areas not used for skiing while bobsledding behind snowcats could get less active enthusiasts out into the snow.

"You could even have mechanized hay-rides!"

Livermore also envisions the development soon of camper bodies on snow vehicles.

All these innovations present possibilities for greatly expanded recreational use of snow country — a demand for facilities which will have to be met, he said.

"Above all, they represent a

demand for creativity on all our parts, of the kind that is being demonstrated in this new night skiing program we are inaugurating here tonight."

Livermore then detailed the state's (California's) roll in development of recreation in this area. He noted that Plumas-Eureka State Park has been designated for simple family snow play.

He said major emphasis is on development of the new Sugar Pine Point State Park eight miles South of Tahoe City.

The speaker said overall statewide plans range from wayside stops for travelers to great undersea parks for use by divers, undersea vehicles and even closed circuit television. Also receiving major attention are urban recreation facilities and programs.

"(But) we need the support and counsel of community leaders and conservationists, businessmen and educators, scientists and ordinary citizens."

"The eight-man advisory committee on Sugar Pine Point State Park chaired by David J. Stollery of Tahoe City is an excellent example of the kind of citizen help we will be seeking more and more in the years to come."

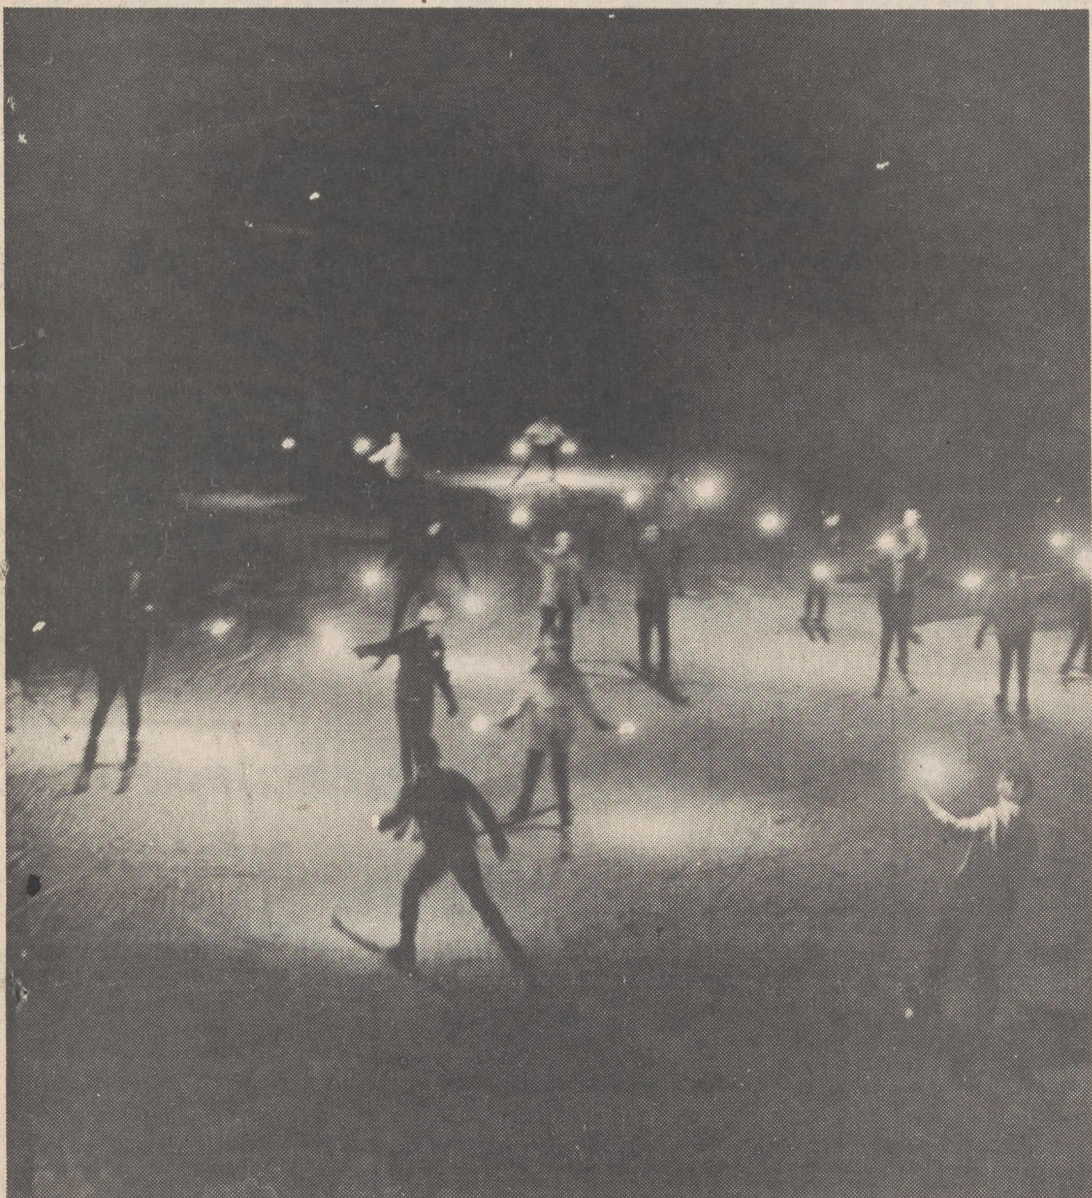

Livermore concluded saying he had detailed "only some of the highlights" of recreational programs within the California Resources Agency.

"We are trying to move in creative ways to meet both the demands of the present and the even greater requirements of the future."

Other special guests at the head table during dinner were Mrs. Livermore, Robert Metzger of Pacific Gas and Electric and Messers and Mesdames W. D. Laughlin of PG&E, Robert Mensinger, president Boreal Ski Corp; Jay Price, Boreal general manager and Bill Thorpe, assistant manager.

## Study Advised

California and Nevada Legislatures probably will be contacted soon to learn if they desire changes in bills submitted to the 90th Congress to create a bi-state agency to regulate developments in the Tahoe Basin, according to Congressman Harold T. (Bizz) Johnson, D-Calif.

The bills will be scrutinized by federal agencies, which could mean six months will pass before the 91st Congress incorporates them into a law creating the bi-state agency.

**REWARD FOR CAPTURE OF SKI THIEF** — Jon Rowell of Denver, Colo., receives \$100 reward from John Buchman, general manager of Squaw Valley, Rowell noticed a man walking away from Squaw Valley Gondola with a new pair of Hart Javelin skis owned by Rowell's skiing friend, Art Gershman of San Francisco. Rowell followed the thief to his car, noted make and license plate of the man's vehicle and notified Placer County Sheriff's at Tahoe City who apprehended the thief within a few minutes. Within a half hour of the theft, Rowell accepted the season's first \$100 reward for ski theft from Squaw Valley Lodge. The alert skier is a Navy yeoman second class stationed at Alameda Naval Air Station.

## Motor Vehicle Operators Must Be Licensed

"Be sure you'll have a place to operate your mini-bike or go-cart legally before you buy it. Lawful operation of any motor vehicle on any public street requires a licensed driver and a registered vehicle," Lt. O.P. Ledford of the California Highway Patrol warns parents who are preparing Christmas gift lists.

Mini-bikes are so light and

small, with scooter-sized wheels and low horsepower, that some people don't realize they are legally classified as motor vehicles, he said. As such they must meet all the equipment requirements contained in the vehicle code in addition to be registered with the Department of Motor Vehicles and operated by a licensed driver in order to be used on any public street, including the sidewalk.

The same requirements apply to go-carts, the low-slung miniature cars sometimes used for parking lot races, if they are to be operated on streets or highways.

Lt. Ledford also pointed out that it is unlawful to operate a motor vehicle in school yards, on posted hiking or riding trails, on sidewalks, and on the grounds of any state, county or municipal institution, without authorization of the governing board.

"That's why we strongly advise knowing in advance where a non registered vehicle will be used before purchasing it. The owner of the vehicle (the parent) is held responsible under the law for the legal operation of the vehicle. If he doesn't plan ahead, he'll have a similar problem to the one facing a parent who gives a BB gun or a small rifle to a child living in a big city which prohibits shooting. He's asking for trouble!"

Lt. Ledford noted that any civil liability of a minor, whether licensed or not, arising out of his driving a motor vehicle on a public road with the expressed or implied permission

of his parents, is imposed upon the parents. The parents are jointly liable with the minor for any damages resulting from an negligent or wrongful act of the minor while driving.

Additionally, a criminal liability is involved. The vehicle code forbids anyone knowingly to permit his child under the age of 21 years to drive upon the highways unless the child is licensed.

It is also unlawful for the owner to permit the operation of any vehicle that is not registered.

"But more important than the civil and criminal liabilities involved is the physical hazard to the child," Lt. Ledford said. "Because of the small size of the vehicle and the youngster, and because of the child's lack of knowledge of traffic perils, if a mini-bike or go-cart is ever hit by a car, the child is almost invariably injured seriously, if not killed."

## Fifteenth Anniversary For Keep America Beautiful

An organization which fights mightily to stem the tidal wave of litter which threatens to engulf this country will celebrate its fifteenth anniversary in New York next week (Nov. 18-19). It deserves a pat on the back.

It is "Keep America Beautiful, Inc.," put together a decade and a half ago by many nationwide corporations whose products or containers were conspicuous in the litter piles. It seemed to them then, as it does now, that it makes good business sense to try to do something about the problem.

KAB, as it is known, has an impressive record of trying to awaken every American "to feel personally responsible for the appearance of his country," of carrying its message to the

country through every mass communication medium, by working with youth groups and in every possible way trying to sensitize an insensitive public.

Despite its herculean efforts, litter continues to pile up in almost every corner of the country. Observably, many people haven't received the message or just don't care. They continue to discard paper, cans, bottles and trash of all kinds wherever they choose.

A message of hope comes from two quarters. The plastics industry reportedly has invented a bottle which evaporates within two years after being emptied. The can industry is making aluminum cans which can be salvaged, melted and remade, giving them value for youthful collectors.

## ATTENTION RESIDENTS & TOURISTS OF LAKE TAHOE

L.T.R. now offers daily round trip bus service between North and South Shore of Lake Tahoe, serving all intermediate points. Schedules listed as leaving from South Lake Tahoe depart from the Greyhound Bus Depot. Purchase tickets at the depot for all points.

## Christmas Song Sparks Investigation

SACRAMENTO — When the medieval troubadour sang about a partridge in a pear tree, he really was "telling it like it is."

Dr. Kenneth C. Smith said this interesting idea comes from an investigation by the Sacramento-Emigrant Trails Association into the origin of the Christmas song, "The Twelve Days of Christmas," the motif for the 1968 Christmas Seals.

"Someone suggested that a partridge in a pear tree was a pretty foolish gift, so we decided to try to find the real story behind the song," Dr. Smith said.

What was found was that its "origin is obscure," although musical experts agree it's an English carol and that carols are "vernacular expressions of Christian ideas."

"In an era when only a few churchmen were literate, this must have been an effective way of 'keeping the faith,' he suggested.

One source describes the song as a "gay and colorful courting song, epitomizing Christmas," and explained that medieval ballads of courtly love actually were songs of devotion to the Virgin Mary. "Stories About Songs," says it may be derived from an ancient Scottish hymn "Yule Days," which substitutes "the king and his lady" for "my true love and me."

Another suggests an old drinking song and nursery rhyme known as "A Pie Sat on a Pear Tree" as the source.

All agree that the song is linked to the Twelfth Night celebration, which followed the fifth century proclamation by the Western Church that the birth of Christ be celebrated on January 6, the date of the Druid rites of the return of the sun.

"Without the Druids," Dr. Kenneth Smith said, "we would be without many Christmas customs, Their Saturnalia, or Feast of Yule, was celebrated at the winter solstice, with a burning log symbolizing the fire mother of the sun god, The Druids lived it up with feasting, fires and gift giving; the most common gifts being candles, wax fruit and dolls. From there, 'he suggested, 'it's a short jump to pears, pipers, dancers and drummers.'"

Although the first Christmas in England was celebrated in 521, the Twelfth Night festivities probably were brought to the island kingdom with the Norman conquest of 1066.

Sometime between then and 1700 the song "The Twelve Days of Christmas" appeared in a form we might recognize today. The first published record is in "Husks Songs of the Nativity" in 1868, although the Standard Dictionary of Folklore, Mythology and Legend says it was printed on broadsides during the preceding 150 years. No one knows just how old it is.

"There is evidence that early celebrations of the 12 days of Christmas were filled with symbols to mirror a prosperous future 12 months," Dr. Smith said. "We hope that the appearance of the partridge in a pear tree on our 1968 Christmas Seal will remind Lake Tahoe residents to celebrate the 'days of Christmas' with a generous gift of live and breath to the year-round fight against tuberculosis and other respiratory diseases.

"There is evidence that early celebrations of the 12 days of Christmas were filled with symbols to mirror a prosperous future 12 months," Dr. Smith said. "We hope that the appearance of the partridge in a pear tree on our 1968 Christmas Seal will remind Lake Tahoe residents to celebrate the 'days of Christmas' with a generous gift of live and breath to the year-round fight against tuberculosis and other respiratory diseases.

A CHRISTMAS GIFT to California from Pacific Gas and Electric Company is sized up by a PG&E employee. The gift, about to be cut by state landscape employees on left, is a symmetrical 27 foot white fir tree harvested from company property at Grouse Ridge, Nevada County. It will become the state's official Christmas tree and will be lighted for the first time on December 16 in the State Capitol rotunda at Sacramento. This is the fifth consecutive year that PG&E has presented the official state Christmas tree to the people of California. A smaller white fir and a Jeffrey pine were cut to be placed in the two halls of the state legislature.

## Grant Takes Over As Soil Conservationist

WASHINGTON — Promotion of Kenneth E. Grant, associate administrator of USDA's Soil Conservation Service, to succeed Administrator Donald A. Williams, who plans to retire in early January, was announced by Secretary of Agriculture Orville L. Freeman.

The change will take place when Dr. Williams retires to become a full-time program adviser on water management and development for the Ford Foundation in India on a program to help that country increase food production. He has served part-time in that capacity for the past year and has made several trips to India, Turkey, Costa Rica, Thailand, Vietnam and New Zealand.

Grant, 48, a career employee of SCS since 1946, was appointed associate administrator in March 1967. A native of Rollinsford, N.H., he was SCS State Conservationist in that state from 1962 to 1964, when he was promoted to State Conservationist in India. He served as head of SCS work in that state, with headquarters at Indianapolis, from June, 1964, to March, 1967.

Grant received a degree in agriculture, with a major in agronomy, from the University of New Hampshire in 1941, and a master's degree in public administration from Harvard University in 1944. He served in the United States Army from December, 1941, to October, 1945. He joined SCS as a junior soil scientist at Keene, N.H., in 1946.

Secretary Freeman, in announcing Grant's appointment, said he has done an "outstand-

ing job" as head of SCS work in New Hampshire and Indiana and as associate administrator of the agency in Washington. Grant in recent months has been the Department of Agriculture's representative on the government-wide task force on the quality of the environment.

Dr. Williams, the third administrator of SCS, directed the agency during the period of its greatest change, Secretary Freeman said. He came up through the ranks after serving SCS in various technical and administrative positions, beginning in 1935 as a Civilian Conservation Corps camp superintendent.

Trained as an engineer at South Dakota State University, he was best known in technical circles for his work in water conservation in the western states. "Don Williams is one of the world's great conservationists," Secretary Freeman said. "He has been responsible for many innovations such as the small watershed program, the Great Plains Conservation Program, and was the first man to call attention to our growing land use, erosion, and water supply problems brought about by rapid conversion of rural lands to urban uses."

Dr. Williams received the Rockefeller Public Service Award in Administration in 1967. He received the Distinguished Service Award of the National Association of Soil and Water Conservation Districts in 1957, and the Distinguished Service Award of the Department of Agriculture in 1958.

## Buying A Child A Bike Isn't Exactly Simple

SAN FRANCISCO — More bicycles are sold during the Christmas shopping season than at any other time of the year. Parents making these purchases should keep certain accident hazards in mind, California Medical Association spokesmen caution.

Two kinds of braking systems for bicycles are currently available. The simplest to operate is the coaster brake, which requires only that the direction of the pedals be reversed.

To apply reverse pedal pressure the arms are used to push the main weight of the body back from the handle bars and onto the pedals. This braking action tends to keep the rider from being pitched headlong over the front wheel as the cycle stops.

Becoming increasingly popular with youngsters are bicycles with gears which permit

the use of multiple speeds. Usually, such cycles are equipped with brakes operated by special grips applied to the handle bars.

Cables transmit the pressure from one hand grip to the front wheel and from the other grip to the rear wheel. If equal pressure is applied to both wheels the braking action of this system is excellent, but obtaining this result requires a degree of skill not possessed by all children.

It too often happens that most of the braking is applied to the front wheel, flipping the bike so that the rider is thrown head-first to the pavement. Hand brakes also add to the risk of severe injury by encouraging coasting with the weight suspended over the handle bars instead of back over the pedals.

In addition, parents considering the purchase of bicycles should ponder the availability in their neighborhoods of areas safe for cyclists.

Physicians are reporting more fatalities and serious head injuries from falls, particularly from bicycle accidents, in the 5 to 15 age group than all other causes combined. Here are four suggestions for reducing the danger to your child:

Give more thought to matching the bike to the skill of the rider. Beware of hand brakes for younger children.

Provide a hard helmet, similar to those worn by motorcyclists, to be worn while bicycling.

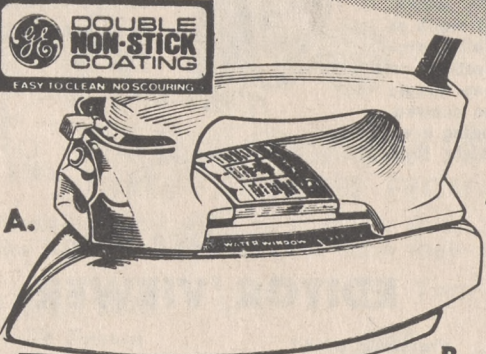

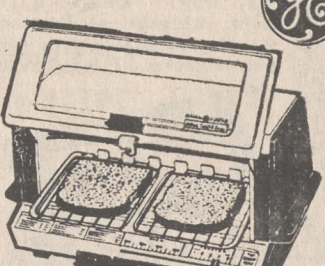

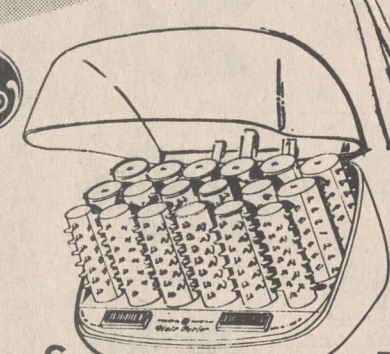

Make certain that lights (the tail light in particular) are installed, maintained, and used when your youngster rides in darkness and/or times of poor visibility (dawn, dusk, rain, fog).

If your neighborhood does not provide safe areas for bicycling, consider the selection of a different gift.

# Nevada Names Carol Burnett 1969 Easter Seal Chairman

RENO — The selection of Carol Burnett, super-star of television as 1969 Easter Seal Chairman has been announced by Jack A. Meich, president of the National Easter Seal Society for Crippled Children and Adults of Nevada, Inc.

The red-haired comedienne's involvement with Easter Seals began dramatically in 1966 when she barnstormed seven cities in a whirlwind one-day tour jet flight to call attention to the campaign. The welcoming committees of handicapped children who greeted Miss Burnett at each airport left a lasting impression with her.

Miss Burnett became an official sponsor of the National Society this year. Recently, she took time off during an especially busy period to film TV spots and tape radio messages for the 1969 appeal.

Following the pattern set by her predecessor chairmen, among them, Dinah Shore, Jimmy Durante, Lucille Ball and Bob Hope — Carol Burnett will enlist the help of her show business colleagues. She also

will urge advertising, broadcasting and publishing executives to join in the campaign which opens March 1 and continues to April 6.

As chairman, Miss Burnett will head a nationwide volunteer corps of hundreds of thousands in enlisting financial support for Easter Seal services that annually aid more than

250,000 crippled children and adults through 2,500 centers and programs.

In the decade since her professional career began, Miss Burnett has captivated audiences in every medium — films, TV, Broadway theater, personal appearances and on records.

## How Fast Can You Stop Your Car?

SAN FRANCISCO — How fast can you stop your car? Statistics show that even with the best of brakes it takes a considerable distance to stop a speeding car and the distance increases as your speed increases.

The California State Automobile Association points out that a motorist traveling at 65 miles

per hour who encounters a situation in which he must stop abruptly will travel 71 feet before he hits the brake pedal and another 252 feet before he comes to a complete stop. These 323 feet could mean the difference between life and death.

Stopping distance — the distance a car will travel before the driver can bring it to a stop

— is actually determined by several factors. Besides brakes, the type, design and condition of tires are important. Old tires that are worn and smooth often skid when the brakes are applied and skidding adds considerably to stopping distance.

Also important is the condition of the road.
